

Victoria Welcomes Royal Navy Ship

ALMOST AN IDENTICAL TWIN to the RCN's cruiser Ontario, HMS Superb arrived here today for a six-day visit. Superb is 555 feet long, displaces 8,000 tons, and carries a peacetime complement of

867. Public is invited to inspect the ship 2 to 5 p.m. Saturday and next Wednesday. She is berthed at Jetty 52, Department of Transport, which can be reached through the main gate at HMCS Naden.

Booming Exchange of Greetings Marks Arrival of HMS Superb

FIRST OF THE SERIES of exchange visits called for by protocol during Superb's visit here was made this morning aboard the ship by Rear-Admiral Hugh Pullen, RCN, Flag Officer, Pacific Coast (centre). He was greeted by Vice-Admiral Sir John Stevens,

(right), Commander-in-Chief of the Royal Navy's America and West Indies Station, and Commodore D. H. Connell-Fuller, captain of Superb. In background is honor guard of ramrod-straight marines. (Times Photos by Halkett.)

Trail's Pete McIntyre Crowned Northwest Seniors' Golf Champ

Smelter executive Pete McIntyre of Trail defeated slender Harry Andrews of Tacoma, 4 and 2, today to win the 33rd annual Seniors' Northwest Golf Association tournament at Victoria Golf Club.

McIntyre, B.C. senior champion, became the first left-handed golfer in history to win the event, and the first Canadian since 1943.

McIntyre won the first two holes to go 2 up, but Andrews nipped the par four sixth to cut the margin to one hole.

Going into the 12th hole, McIntyre remained 2 up after winning the eighth and 11th holes and losing the 10th.

The 12th, 13th and 14th holes were halved. McIntyre went 3 up with a par on the 15th, and Andrews conceded the 16th hole and the match after putting his second shot into a bunker and chipping out short.

10 Firemen Injured In Vancouver Blaze

U.S. TROOPS DIG IN AS KOREA CRISIS NEARS

SEOUL, Korea (Saturday)—(UP)—Reinforced U.S. troops today threw up sandbag barricades and dug in behind them for anticipated riotous Korean demonstrators aimed at driving neutral truce inspection teams from Korea by midnight.

Units of the 32nd Infantry Regiment, 7th Division equipped with complete combat gear, were standing by at Kimpo airfield to be flown to U.S. compounds already besieged by Korean demonstrators. (See also Page 8).

Man Crushed To Death on Pat Bay Road

Gordon Lowe, Nanaimo, Dies When Pinned Under Rolling Car

A 28-year-old Nanaimo businessman and father of two children was killed instantly today in an early-morning car accident near Sidney.

Dead is Gordon W. Lowe, 114 Argyle Street, Nanaimo.

Lowe's head was crushed when the car he was riding in rolled on its side after failing to negotiate a turn on West Saanich Road, about one-half mile south of Towner Park Road.

Towner Park Road is near the West Saanich Indian Reserve.

Inquest will be held Monday at 10 a.m. at Sands Funeral Chapel at Sidney.

RCMP identified driver of the car as Desmond George McGimpsey.

McGimpsey and two other passengers in the car escaped uninjured, RCMP said. Police would not identify them.

HIT SOFT SHOULDER

The car was travelling toward Victoria when it failed to make a turn to the right, going off the left side of the road and hitting a soft shoulder and about a three-foot dip.

It turned on its side. Lowe apparently had his head out the left rear side window at the time.

Lowe was born in Coombs, B.C., and was a resident of Nanaimo since 1947.

He was a partner in Totem Electric shop.

He is survived by his wife, Mary; two daughters, Marjorie, 7, and Janice, 6, at home; his parents, Mr. and Mrs. Norman Lowe, Nanaimo; a sister, Mrs. Ruth Arsenault, also of Nanaimo.

Funeral services will be held Wednesday at Nanaimo.

Moscow Visit Sept. 9

PARIS (UP)—West Germany announced today that Chancellor Konrad Adenauer will visit Moscow on Sept. 9.

MORE RESEARCH SECRETS UNLOCKED

Red China Slips Observer Into Atoms-for-Peace Talks

(Compiled from UP, AP and Reuters)

GENEVA—Red China today slipped into the Atoms-for-Peace Conference—through the back door.

Tu Shang-wang, identified as a Peiping metallurgist, presented credentials from the Communist World Federation of Scientific Observers. He was admitted as an observer.

Red China's consulate here said it could be "assumed" Tu "will report back to the People's Republic of China."

Tu arrived Thursday, via Moscow.

He is the first accredited Red China representative ever to participate in a United Nations meeting in Geneva.

His arrival topped a week of surprises, led off by President Eisenhower's historic action in unlocking for the world the

U.S. secrets on atomic research reactors.

The president sent eight volumes of blueprints and technical data to the 72-nation conference.

SOVIETS DO LIKEWISE

Russia followed suit the next day. Dr. M. S. Kozlov gave detailed highly technical data on Soviet nuclear experiments.

One Western delegate commented: "The atomic curtain in fundamental physics is now completely down between East and West."

Today's atoms-for-peace sessions heard, in highly technical lectures, how atomic waste products are being turned into radioactive isotopes for treatment of cancer.

Dr. W. V. Mayneord of the Royal Cancer Hospital, London, described a device that, under certain conditions, will show a brain tumor on a television screen.

M. N. Fateyeva, a Soviet scientist, said his country's doctors are making extensive use of radioactive sodium and phosphorus to study heart disease.

CANCER-KILLER

Two American doctors, W. F. Bale and I. L. Spar of the University of Rochester, outlined a new kind of "guided missile" against cancer.

They are searching for substances that would "home" on

Blast Hurls Men 50 Feet in \$250,000 False Creek Fire

VANCOUVER (CP)—Ten firemen and a company employee were injured in a savage, explosion-torn fire Thursday night which swept through the millwork plant of Dominion Construction Co. in the heart of Vancouver's False Creek industrial area causing \$250,000 damage.

Two hundred firemen battled the stubborn, paint-fed blaze for more than two hours before bringing it under control and keeping it from touching off a major oil fire.

Roaring flames belched 200 feet into the air, erupted by five explosions and threatening surrounding plants in the multi-million dollar industrial site.

The injured firemen suffered cuts from flying glass, eye injuries and one a fractured wrist from a fall.

FINGERS CRUSHED

Company worker Jim Guile, 30, suffered two crushed fingers when he attempted to salvage some of the expensive furniture being built by his company.

Ten other firemen narrowly escaped serious injury when pent-up gas in the huge, new building exploded in a back flash, hurling some of them 50 feet.

Firefighters struggled through the intense heat and dense smoke to prevent flames reaching the oil storage rooms and volatile liquids in the paint room.

Although flames licked at the walls of both these explosive areas, firemen prevented them from erupting by keeping a continuous stream of water flowing over them.

TOTAL LOSS

H. C. Bental, vice-president of Dominion Construction, estimated the value of building and contents at \$250,000. He said the building, covered by insurance, was a total loss.

Destroyed in the fire besides the new 150-foot-long building was part of a \$150,000 order of refrigerator cases, millwork machinery, stores of plywood, paint and other building materials.

The plant employed 100 men. Mr. Bental said they would all be relocated and manufacturing operations would be continued in other company premises.

HUNGARY MILERS OUTFOX CHATAWAY

LONDON (AP)—Laszlo Tabari edged out his fellow Hungarian Sander Iharos in a battle of the four minute-milers today to outfox Britain's Chris Chataway who finished a weak third.

Both Tabari and Iharos clocked at 4:05. Chataway's time was 4:06.4 and Ken Wood of Britain trailed in the four-man field in 4:08.2. (See sports page.)

'Connie' Smacks Carolina Coast; N.Y. Deluged

Winds Slackening; 'Diane' Coming Up

NEW YORK (UP)—Torrential rains created by the approaching hurricane "Connie" hit New York City early today blocking arterial highways and flooding subway stations and thousands of basements.

Police reported that hundreds of automobiles were stalled in deep run-off water on Long Island, some in water up to the rooftops.

The transit authority said tons of water poured into several subway stations in the boroughs of Queens and Brooklyn.

Four deaths were attributed to the flooding.

CAPE HATTERAS, N.C. (UP)—Hurricane Connie smacked against the North Carolina coast today and headed north toward the heavily populated eastern seaboard while far to the southeast another tropical storm reached full hurricane strength.

The new hurricane was Diane, still 1,150 miles east of Miami. Highest winds already were up to 90 or 90 miles an hour.

Connie bored inland at Morehead City, N.C., in mid-morning with winds officially clocked at about 100 miles an hour, but unofficially they were said to have been considerably below that shortly after they hit the coast.

The storm pushed tidewater far inland, however, and streams flooded their banks at scores of points. Thousands were homeless.

An amateur radio operator reported from a spot inland and west of Morehead City at noon that he may have to close down because the top of the tower where his equipment was located was about to blow away.

The Red Cross housed 14,000 last night in shelters along the North Carolina coast and another 6,700 at Myrtle Beach, S.C.

HALIFAX (BUP)—The weather bureau in Halifax predicted today that Nova Scotia would get gale force winds as a result of hurricane Connie in about 36 hours time.

China, U.S. Agree Students To Go Home

NEW DELHI (Reuters)—American and Chinese Communist negotiators at Geneva have agreed in principle to the idea of a "third party" to supervise return of Chinese students who wish to leave the United States. It was learned from usually reliable sources here today.

India, it is understood, will undertake the third party responsibility, despite her already heavy commitments in Indochina, if Communist China makes an official approach and the United States enters no objections.

IT WAS POET, NOT POEM; CROSSWORD PRIZE \$375

Prize money in the Times' popular Crossword Contest continues to mount; contestants again failed with last week's puzzle. For the puzzle published today on Page 24 a total award of \$375 is offered.

Poet was one of the hard nuts for puzzlers to crack last week. The clue read:

"Might help a person to appreciate the beauty of words." Most entries came up with answer "poem." The poem itself does not help, but merely presents words in a beautiful form whereas a poet might literally help.

Other answers puzzlers found difficult to arrive at were "paddle," most of them giving "saddle," and "fame" which thousands thought should be "name."

Complete answer and explanation for the more difficult clues are also on Page 24 of today's Times.

Them harridans got nice names—Connie an' Diane and sech—but they sure ain't no ladies.

This divulgin' o' atomic secrets seems t' be a matter o' tell me what y' think I already know an' I'll tell you what I think y've already found out.

Safeway Plans 2 More Stores

Stores at James Bay, Burnside Round Out \$1,000,000 Program

A proposed new supermarket in James Bay and another in Burnside will round out a \$1,000,000 expansion plan in Greater Victoria, it was announced from Vancouver today by Canada Safeway Ltd.

This brings to four the number of new store units for this area. In the 1955-56 period planned by the grocery chain. When the program is complete, new stores are expected to be in operation at Quadra and Kings, Fort and Foul Bay Road, Burnside and Tillicum and Simcoe and Menzies.

Quadra, Kings Store Largest

The company's Vancouver office said the branch now under construction at Quadra and Kings will be the largest on Vancouver Island. It is valued at \$300,000 or \$500,000 completely stocked. Opening day target is Oct. 15 this year.

Construction is expected to start in the late spring of next year on a slightly smaller store at Burnside and Tillicum, where 2.36 acres have been purchased. They adjoin property owned by Imperial Oil Company. The cost of the store is estimated at \$250,000.

Officials point out although the Burnside store also adjoins a shopping centre previously proposed by Capital Land Developments Ltd. in the Westview subdivision, it is not a part of the same plan.

"The store will go ahead whether the rest of the development proceeds or not," a spokesman said.

The 120-acre multi-million dollar subdivision includes such other projects as the \$500,000 Colquhoun Junior High School

Market Survey Being Conducted

Meantime, the company is conducting a market-potential survey to determine finally the extent of that project. It is not expected to be as large as either the Quadra or Burnside units, but will cost over \$200,000.

The company announcement suggested that one Safeway store presently in operation in Victoria, at Menzies and Michigan, will ultimately be closed when it is replaced at Menzies and Simcoe. All the other units will be additional to the six Safeway stores already operating here.

Another well-known food-handling firm, Victoria Unity Products Ltd., will also expand with construction of a \$25,000 distribution centre at 2103 Government. The firm, a Chinese farmers' co-operative wholesale, will move in October from an old two-story building on Cornorant where it has done business for 20 years.

The new warehouse, now being built, is of concrete block construction. The site is the one which was to be developed

SAANICH WILL DANCE ON THE GREEN TONIGHT

Saanich Recreational Council will wind up summer playground activities this week-end, commencing with a square dance exhibition and dancing on the green at Reynolds Road Park tonight at 8.30.

Saturday at 2 p.m., the children will take part in a gigantic sports day.

B.C. Asks Federal Aid For West Coast Ships

Cost Differential Subsidy Proposed For Merchant, Naval Construction Here

OTTAWA (CP)—British Columbia and the 200,000-member Interprovincial Farm Union Council say any subsidization of a Canadian merchant fleet should be done by the federal government at the expense of all taxpayers.

The Pacific coast province and the council, which represents farm unions in Ontario, Manitoba, Saskatchewan, Alberta and B.C., made this recommendation in briefs submitted to the royal commission studying Canada's coastal shipping trade.

The B.C. brief said it is obvious that national security demands the maintenance of at least a strong nucleus of a merchant marine and a shipbuilding industry capable of expanding rapidly in event of war.

Any aid granted to deep-sea shipping can only be justified upon national defence requirements, and, therefore, the cost must be borne by the entire country," the brief said.

COST DIFFERENTIAL

The council said any other method than direct federal subsidies would endanger the natural growth of Canadian agriculture and the country's expanding national economy. No form of subsidies should be instituted which would have the effect of raising the cost of shipping either in coastal or foreign trade.

British Columbia also urged the government to encourage private shipping companies to build their vessels in Canada by providing subsidies. Such subsidies should cover the difference in cost of building in Canada as compared with the United Kingdom.

The brief said a further subsidy should be provided, if required, to assure the building in B.C. of ships used on the west coast. The subsidy could be based on any differences in construction costs between the west coast and eastern Canada. "This principle of cost differential should also be considered in the awarding of naval contracts," the brief said.

Rossiter Holds Back On Whelan Successor

VANCOUVER (CP)—Acting chief Alan Rossiter said today an appointment to the post of patrol superintendent, vacant since the suicide a week ago of Harry Whelan, may not be made until the fall.

Deputy chief Gordon Ambrose has taken over the duties of patrol superintendent in the meantime.

Supt. Whelan was found dying in his home last week. His service revolver was by his side, and there was a bullet wound in his heart. He had been scheduled to testify at the Tupper police probe three hours later.

His funeral on Wednesday afternoon brought the greatest voluntary tribute ever paid a Vancouver police force officer. More than 300 uniformed con-

stantes—almost the complete complement of the two off-duty shifts—attended the last rites. Members of Supt. Whelan's Masonic Lodge, Mount Morial, were the pallbearers. A guard of honor was formed by city policemen and firemen, along with four CPR policemen.

Supt. Whelan's record of service on Vancouver police force was outstanding. He won seven commendations for alertness on duty and a medal for bravery.

Ted Bird Dies

VANCOUVER (CP)—Lawyer E. I. Ted Bird, 54, died in hospital here Wednesday. He was a cousin of Mr. Justice Irvin Bird of the Supreme Court. Surviving are his widow and a brother.

Island Scouts Will Re-Enact Cook's Landing

GEORGE BENNETT
... Jamboree Scoutmaster

CUB COMFORTER

Lone Woman From Victoria At Jamboree

Winnie Lees, Victoria's sole feminine representative at the World Scout Jamboree at Niagara-On-the-Lake, left for the jamboree centre today.

But Miss Lees won't be living entirely in a man's world when she reaches her destination. Some 250 women cub leaders will be helping out with camp operations. They have already started arriving and by Aug. 18, when the camp opens to 10,000 scouts, they will be helping in the canteen, clerking at the trading post and doing administration secretarial work. They also expect to be called on to comfort homesick little cubs who may feel the miles from home.

1740 Douglas Street

Ten thousand scouts from all parts of the world, who gather at the Niagara World Jamboree this month, will take home vivid conceptions of how B.C. native Indians looked in the days of western discovery.

That is the intention at least of the Victoria group which is carrying fringe, feathers and warpaint to the tent city.

The landing of Captain Cook at Nootka will be enacted by the 100 Vancouver Island boys at the camp.

Victoria Scouts will play the Indians in the pageant and the up-Island boys will act as the British explorers.

For three weeks, Scouts and

their parents have worked on costumes. To give them authenticity, they borrowed a genuine mask from the provincial museum and copied from it.

The Pacific camp, where the local boys will spend ten days from August 18, will also be established with a special gateway which was designed in western motif by the local scout group.

Leave for Niagara Sunday

The boys leave Sunday. They will march behind Victoria Girls' Pipe Band from the Johnson Street headquarters to the Legislative Buildings lawn where they will be inspected by former scout, Ald. Robert Macmillan, at 1.30 p.m.

Following is the list of names of Vancouver Island boys in the Jamboree party:

Victoria Scouts—G. A. Cuthbert, Anton Smith, Ronald Pinfold, William Buxton, Thomas Collett, Gordon F. H. Bates, Michael J. Deane, George W. Megaw, Robert M. Watt, Peter W. Bishop, John W. Hogg, Stanley H. Smyth, Peter H. Davies, James G. Whiteaker, Gerald D. Dunnett, William T. Kelly, Gordon L. Spriggs, William L. Wansborough, Ernie Quan, William B. Bennett, John W. Melkie, Robert D. Miller, Clive W. Duggan, David H. J. Helgesen, Bruce E. C. Fraser, Robert W. Hamilton, Wilfred Klingsaat, Stephen B. White, Ellis A. Meads, Dennis R. Pain, Edward W. Pomeroy, W. Ernest Richards.

Swim Rivalry Resumes Today

PHILADELPHIA (AP)—A heated international rivalry that began in last spring's Pan-American Games highlights today's session of the four-day women's U.S. AAU swimming and diving championships.

The meet began Thursday night with Carolyn Green of Fort Lauderdale, Fla., winning her fourth successive 1500-meter freestyle championship, despite a physical handicap, and with Mary Ann Marchino of Indianapolis setting a junior U.S. record in the 100-meter back stroke.

But all attention today is focused on the attempt of 14-year-old Wanda Werner of Washington, D.C., to turn the tables on her Pan-American conqueror, Helen Stewart, of Ocean Falls, B.C.

RADAR RAIN WARNING

LONDON (CP)—A radar scanner has been installed on the roof of the air ministry. Weather officials hope it will detect "precipitation echoes"— echoes from clouds from a distance of some 100 miles. It will not take soundings from clouds which don't contain rain-drops.

RADAR TRAP CATCHES 32

BURNABY (CP)—The RCMP's radar trap has caught 32 motorists in less than a month. All pleaded guilty to speeding charges Thursday, and paid fines averaging \$15 and \$2 costs.

MODERN TURKEY

In the past few years more than 40,000 farm tractors have been imported into Turkey.

SEARCHERS COME FROM 100 MILES AWAY

Deaf-Mute Boy, 7, Lost in Bush; Barefoot, Clad in Shorts, Shirt

MASSEY, Ont. (CP)—Led by police dogs and fed by family friends more than 250 men and women today tramped through the bush here in what they feared was their last hope of finding deaf-mute Gordon Houle, 7, alive.

Hopes of locating the barefoot grandson of Massey's mayor suddenly rose Thursday night when a dog picked up his scent. Although kept in the area until nightfall, the dog was unable to find it again. The searchers held little hope that the boy, who wore only shorts and an undershirt when he ran into the forest Wednesday, could survive another night. They also feared he would be plagued by blackflies and weakened by hunger. Friends and neighbors in this

town 100 miles west of Sudbury today packed lunch for the searchers who have come from points more than 100 miles away to join the party.

Home Permanent Haircut
(A Specialist)
FIRTH OF FORT
635 FORT ST. Suites 9 and 10

A Permanent so easy you do it yourself—**NO HELP NEEDED!**

These hairdos were made with Bobbi... the special home permanent for casual hair styles.

No Neutralizer!

No Re-setting!

No Tiresome Winding!

Only \$1.75

Bobbi PIN-CURL PERMANENT

Sets, styles, waves
all at **ONE** time!

So fast, so familiar a method that giving yourself a Bobbi takes just a few more minutes than putting your pin curls up at night. And there's no worry of wrong-way waves or wrong-place curls. Your hair is waved in the style you want—with the body, the beauty, the soft, lovely look of naturally wavy hair.

Only Bobbi gives you all this
at no extra cost!

More Wheat, More Trouble

ON THE GREAT PLAINS OF Canada the wheat is ripening under the hot August sun. Despite the late, wet spring, the nation seems assured of a bumper crop, though it could be reduced by bad weather or rust during the next month.

In an orderly world the yield of the good Canadian wheat would be a huge economic asset and a gift of Providence. In the world we presently inhabit the bounteous harvest now in prospect may create grave problems for farmers and taxpayers alike.

The elevators of Canada hold some 450 million bushels of unsold wheat from former crops. That is a decline from the figure of 580 million a year ago, but it is still a formidable carry-over when another big crop is almost ready for reaping.

We have not been selling wheat this year as rapidly as the Federal Government had hoped. Preliminary statistics indicate that our sales have not increased over the previous year, whereas our great competitors in the world market, the United States, Argentina and Australia, have all raised their exports.

The primary cause of our current Canadian wheat problem is obvious—the United States, under various disguises, is dumping wheat all over the world to reduce the gigantic surplus resulting from its domestic price-support policies. In some cases wheat (and other farm products) are given away for nothing. In others the foreign importers pay in their own soft currencies which are of little or no value at present to the United States. The American Congress seems to

care little if the wheat is not paid for and its export is really a loss to the national economy. The political pressure to ease the surplus has proved irresistible and doubtless will increase as the 1956 election comes into sight.

Last year Congress ordered the Government to unload \$700 million worth of farm surpluses for foreign currencies, in a three-year period. This figure was recently doubled to provide something like a fire sale of American foodstuffs.

The massive and cheap exports now under way will certainly benefit foreign countries in need of food, but they are calculated to bedevil the world market and to damage exporters like Canada which cannot afford to give their goods away. Other nations are the beneficiaries but Canada is the victim of American charity.

Until now no solution of these problems has appeared. The American and Canadian Governments are in constant consultation and each understands the difficulties of the other. But weather and soil, taking no account of human affairs, continue to pile up unsaleable food.

It is unsaleable not because the world at large has enough food, but because they cannot sell their own goods to the richer nations over the picket fence of tariffs and other restrictions obstructing all trade.

The problem of wheat thus illustrates the larger problem of international commerce, still unsolved and sure to grow worse if the exchange of goods is further restricted by protectionist policies.

Sadder, Wiser Man

PREMIER MANNING, OF Alberta, who seems to have become a sadder and a wiser man since the ballots were counted last June, is setting up a royal commission to consider charges of corruption against his Government.

The commission will submit its report in due time and until then there can be no comment on its work. But in the meantime Mr. Manning has revealed some of his own second thoughts.

In the election campaign, for example, he saw nothing wrong in Social Credit members of the legislature seeking and securing loans from the treasury branches, which are really banks operated by the Government. Now, yielding to the public's obvious protest, he proposes to make such loans illegal, as undoubtedly they should always have been.

This represents a major retreat by the Government and a reform long overdue. The theory that a member of the legislature could properly borrow from the government which he was supporting in politics would have been intolerable in any province but Alberta and should have been intolerable there.

Hand of a Neighbor

ALONG WITH THE AID TO underdeveloped countries provided through the Colombo Plan and other major undertakings a vitally important form of help is offered through an agency working on a different scale. The work of CARE, the Co-operative for American Remittances to Everywhere, continues in many lands—the effective fruits of the contributions of thousands of individuals in more fortunate nations.

CARE won the gratitude of millions through its distribution of relief packages to needy victims of the war in Europe. Later it performed, and is still performing, the same service for South Vietnamese and Koreans who have been left in grave straits by the recent conflicts.

But the bulk of the effort has now been transferred to another phase of relief: the provision of sup-

plies and equipment to poverty-stricken village populations in many countries. Villages in India, Korea, Southeast Asia, the Middle East and Latin America—wherever the most pressing need exists—have been the beneficiaries of CARE aid.

The assistance consists of tools and equipment, ploughs and seed, machines for cottage industries, books and stoves for schools, livestock and poultry. Any means that will enable a village to become self-supporting, that will help the rural people to improve their crops and produce small industrial goods for their own use or income, are provided by CARE.

CARE represents an outlet for good neighborliness in which many Canadians have joined. The Canadian headquarters is located at 116 O'Connor Street, in Ottawa.

Mr. Winters' Buildings

MR. WINTERS, ONE OF OUR ablest administrators, is trying to clean up a sorry mess in the Federal Government's public works department. But, according to the recent report of a Senate committee, he has a long way to go yet.

When Mr. Winters took over his department he found that most of the other departments were doing their own building, pretty much as they pleased. As a result, numerous and duplicating staffs of architects, engineers and other experts were operating all over Ottawa. Mr. Winters has succeeded in concentrating much of this business in a single department where it belongs. Nevertheless, much duplication and doubtless much inefficiency continue.

The Senate committee under Senator T. A. Crerar (that indefatigable watchdog of public expenditure) found some interesting facts.

For example, the Government bought a building site for \$715,680 in the west end of Ottawa and then

spent \$1,887,833 to landscape, pave it and provide it with watermain. The committee wondered but could not discover why twice as much must be spent in improvements as on the purchase of the land itself, even before construction begins.

The commission also wondered about the wisdom of a huge new printing bureau in Hull, across the river from Ottawa, which has cost \$13,035,990 so far, apart from the price of the land, the landscaping and the machinery, not yet purchased.

During the war the Government's printing operations were enormous, as they had to be. Private firms did much of this business and built up large plants for the purpose. Now the Government is proposing to consolidate all the work in a single plant and obviously is sparing no expense.

The committee lacked time to go into this project and many others but when it meets again it should resume its studies, a task long neglected by the House of Commons.

Ottawa Vacations

Chips

BY DAVID BROCK

I WAS reading somewhere that there is a new kind of neurosis or psychosis of those. Nervous trouble. It hits men on Sunday afternoons. It is caused by their feeling guilty at being idle. It was seriously written-up, and I have no doubt that such a thing exists. I can even offer you an explanation of what causes it. Sundays are no new thing, yet the disease is new. How do you account for that? Easy. It is caused by the five-day week. In other words, it is a delayed action thing that hits you on Sunday but really starts on Saturday morning.

THE BRIDE RINGS TWICE
NOT so long ago I picked up a nifty idea on another page of this here family journal. There was a picture of two salads sitting on a platter, made up in two large circles that looked very like port-holes. Under the picture I read "Having double-ring salad." Serve a double-ring salad." Well, I'll bear it in mind. When my twin daughters marry, perhaps we could have quadruple-ring salads, solemnized over four port-hole salads. We could carry this cute idea several steps further, too. Everyone could wear bi-focal glasses... double-rings on each eye. In fact, if we sat up all night before the old nuptials, at a kind of wake in reverse, we could have double-ring UNDER each eye as well. This would all add to the fun. Or, if not fun, it would help to remind us that marriage isn't just a joke.

NICE DIALOGUE
A FRIEND of mine was telling me about her younger sister in England. "You'd like her a lot, Dave. She says really awful things, and says them very well. I remember she once said to me: 'I don't know which provokes me more, your pseudo-refinement or your inherent vulgarity.'" And of course my friend was quite right. This is excellent dialogue. Especially from a younger sister to an older one. Mind you, Oscar Wilde wrote a good bit of dialogue about vulgarity too. He said: "Vulgarity is the behavior of other people."

O MY OFFENCE IS RANK
YOU will remember, of course, how back in July an Ordinary Seaman, R.N., assaulted an Admiral, R.N. The motives of the O.S. were a little obscure. I believe it was stated in his defence that he was just fed up, or words to that effect. Something about his being sick of standing watch.

Well, this rather sad and dull little story was played up for all it was worth, and a bit more. I read many versions of it, and much comment, till I wanted to hit essays and commentators rather than people in gold braid. But my clenched fists fell limp and helpless to my sides when I read the remarks of Miss Jean Howarth, of Vancouver, printed a week or two ago in that city of the big broad outlook.

INSTEAD of intimating that we all have a tendency to go berserk, Miss Howarth felt the O.S. had somehow managed to perform a noble deed on behalf of the downtrodden. The O.S. had fulfilled the secret wishes of us all. He was fighting on behalf of that now old-fashioned figure, the Little Man. (Actually, of course, the Little Man is now the boss of the western world, and not always a very fair one either.) True, Miss Howarth larded her essay with such things as "One cannot go round poking admirals" and "Though it may have been a reprehensible dream, it was a very sweet one", and so on. But these were mainly for appearances... they seemed to tone down, without actually toning down, such wilder statements as "To hear it has actually been accomplished... is a great thing."

THE most curious and revealing paragraph was this: "It is not that we have anything against the admiral who got punched. Except, of course, that he was an admiral." Yes, sir, it is a mighty serious offence being an admiral. A man of that rank should for ever be quoting Hamlet's uncle: "O my office is rank." He could also quote Macduff: "Fit to govern! No, not to live." He should be the object of universal hatred, ridicule, and contempt. Makes for esprit de corps.

ONCE the sailors realize he is the source of all their troubles, they are unlikely to split their personalities in an orgy of self-criticism. They will be justified, not only in themselves but as a fighting force. Still, perhaps they should be grateful to him for so uniting them.

My experience of Admirals has probably been a lot less educational than has Miss Howarth's. One gets to know quite a lot about them in fiction and at tea parties, two branches of education I have rather neglected. But I know a good deal about other forms of rank and authority, and she is only too right. Anarchy is the only workable system. If a chap becomes a Prime Minister, a Pope, a Lord Chief Justice, or anything else at the top of his calling, it means there is something Wrong. (Unless, of course, he happens to be a bit of a leftist himself, and then it is All Right.)

Life should be more like HMS Pinafore. All decisions should be referred to the Lower Deck... or possibly to Miss Howarth. But she can take heart from this: life is getting more like HMS Pinafore all the time, in the Navy and out of it. It won't be long now.

DENNIS THE MENACE

From Our Files

Aug. 12, 1895—Under the patronage of His Honor the Lieut. Governor and Mrs. Dewdney and His Worship the Mayor and Mrs. Teague, the grand garden party will be opened on the Douglas estate at 2 p.m. tomorrow.

Aug. 12, 1915—"The Saanich Observatory should be ready for opening in about 12 months," said Dr. J. S. Plaskett, Dominion Astronomer, who returned to the city from San Francisco.

Aug. 12, 1935—After weeks of waiting during which an odd spring or coho was caught, the big run of cohos started yesterday in these waters. Virtually every fisherman got at least one.

As Our Readers See It

LOOKS LIKE A CINCH

I get sick and tired reading all the phony stuff about Buttle Lake put in your paper by the Power Commission. My home is at Buttle Lake and I have lived here for 28 years. The Government says that only millionaires with planes can get to the lake. Bunk!

The cars at the foot of the lake have been so thick the last three summers that I have been thinking of opening a parking lot. A lot of them tow their boats on trailers and I have seen over thirty strange boats on my end of the lake at one time.

Thousands of people have come into the lake since I have lived here—very few of them in planes.

We had a good trail for pack horses for more than 20 years—the Government built it and kept it in condition. The Elk River Timber Company logged over it and while they were logging the visitors came in on E.R.T. speeders and work trains. When the Elk River Co. was forced to stop logging in the lake they did not open the trail. During the six years that the Government kept the trail closed, we had to walk out to Upper Campbell on the logging railroad.

Then the Power Commission thought they could build a dam here, and built a good auto road to the lake. If the crowds don't stop coming I'm going to have to move. Guess I'll have to move anyway, because I've seen so many timber cruisers in here the last three years, that it looks like a cinch they are going to log out the timber. One of the cruisers told me that there was over 700,000,000 feet—mostly Douglas Fir—that could be pulled into the lake!

One thing I have learned for sure during my forty years in B.C. is that where Douglas Fir is—loggers will go—park or no park.

HARRY ROGERS.

Long-time Mayor of Buttle Lake.

P.S. I always call elections in the winter time when I am the only voter.

OPEN SEASON

For no apparent reason except an inordinate and ever-present desire to kill, B.C.'s game regulations for 1955 provide for an increased bag-limit on deer of either sex or age. Season on ducks, coots and geese, other than Snow Geese, is increased by six days. In various sections of Vancouver Island there is to be open season on hen pheasants.

Before long country dwellers will be forced to endure reports of innumerable guns; and flinch at the thought that each bullet may have brought death or agony to some helpless innocent wood-creature. Soon we shall see autos loaded with pitiful staring carcasses of deer, stained by their own split blood.

This wanton destruction and disregard of life is called "sport"; and is looked forward to eagerly by men and women whose ethics in this regard appear lower than those of their Neandertal ancestors.

If this increasing carnage and utter callousness is one of the characteristics of our boasted Age of Progress then indeed we should not be surprised or resentful towards our Creator if this civilization sinks in a bloody sea of horror.

We who do not lift our voices against cruelty are equally guilty with those who commit crimes of violence against helpless creatures.

ELIZABETH SMITH.

Sooke, B.C.

Ten-Year Plan for Formosa

By WALTER LIPPMANN, from Washington

WE ARE, I think, under-estimating seriously the strength of Chou En-lai's diplomacy when we think of his more conciliatory attitude, as primarily propaganda. It is true that the hostile

tune of the Chinese Communist propaganda has been muted. But that change did not take place until after the situation in the Formosa area had changed decisively in favor of Peiping. The fact is that Chou became ready and willing to negotiate about the little issues, such as the prisoners and detained persons, when on the crucial issue, he had achieved his primary and paramount objective.

This is the elimination of Chiang as a contender on the mainland—the definitive renunciation by the United States of its support of the reconquest of the mainland.

Chou En-lai did not become conciliatory in order to gain this objective. He became conciliatory after he had gained it, after he was sure that the President had over-ruled and had put down Chiang's American supporters.

Why, then, does it now serve his purpose to be conciliatory? Because, if I read correctly his recent statements, he is convinced that time is now working for him in Formosa, that the rest of the way is downhill. Once the Nationalist Chinese were deprived of the promise, indeed of the hope, of recovering the mainland, it could be only a matter of time before most of them make their peace with Peiping.

CHANGE OF ATTITUDE
It was this spring that the final turn against American intervention took place in Washington, and this was followed almost immediately by a change of Chou's attitude and of the Communist propaganda.

We must note in this connection that Chou is now taking the position that the future of Formosa is a question for the Chinese to arrange among themselves, and that the United States is not a party to the issue and has no right to participate in its settlement.

While we are saying that we will not negotiate about Formosa and the off shore islands unless Chiang participates, Chou is now telling us that he does not wish to negotiate about them if we participate—that he wants to negotiate directly with the Chinese on Formosa. Chou does not admit that the United States has any legal standing in Formosa. It follows, quite obviously, that Chou expects to get Formosa by making deals with the Chinese in Formosa.

Now that the President has bottled up Chiang on the island of Formosa, Chou's diplomatic position is, as I have been saying, very strong. But the

TWO-PARTY SYSTEM

Now that a candidate has been selected by the so-called Social Credit movement for the Lillooet by-election, it is to be hoped that the situation will be taken as seriously—politically—as the matter warrants; it would have proved more just to the electorate if only the two parties—whose cause it is—were allowed to contest the issue.

The only hope of ever regaining responsible government—or government by the people—is to recover the two-party system, and for the electorate to see that there is always a strong opposition, in order to prevent a dictatorship of the executive evolving, as is now the case in Canada.

So-called Social Credit in British Columbia is proving itself a mere medium, working in the interest of huge monopolies and cartels, and its methods of bookkeeping in the treasury branch are an outstanding breach against the interest of the "little" people.

The out and out force of keeping contingent liabilities separate from the overall accounting is indicative of deceiving the citizenry regarding their obligations as taxpayers. It would enlighten the electorate if it could be verified as to whether all the varied agencies that are authorized by the government to borrow loans—in the name of the people—pay their taxes on the said loans, because, if not, the loans are a form of subsidizing by the taxpayers, which simply involves them—the taxpayers—in dual taxation.

Crown—or public—corporations or companies should borrow their money for themselves on the open market—where investment money awaits speculation—and not use the so-called government of the "people" as a whole to indenture the taxpayers for all time in the interest of said agencies' own financial security; by such methods the "little" people are kept on the wheel all the time in the interest of building up a gigantic privileged class.

That danger is now more than apparent in all the so-called democracies, as one watches the golden harvest that usury is reaping; to counteract that state of things the parliamentary system must be restored if the people really understand the "meaning" of freedom or the alternative meaning of economic tyranny soft pedaled to the tune of the "welfare state," which simply means the financial "grinding"—through taxation—of the long-suffering conscientious solid citizenry.

ELLEN HART.

East Sooke, B.C.

HOSPITAL CHAPEL

In reading the Times of last Friday, Aug. 5, the writer was surprised, that one of your correspondents should complain with regard to the money allocated by the Federal Government to build a Chapel on the grounds of the DVA Victoria Veterans' Hospital.

Perhaps, your correspondent is unaware that the WA of the Veterans' Hospital have been pressing the Federal Government for several years past, strongly backed by our Padre (the Rev. Douglas Kendal) to build a Veterans' Chapel in Victoria that at long last has been granted.

The writer submits, contrary to your correspondent's opinion, that the money sanctioned by the Federal Government, could not be used for a wiser purpose.

VETERAN.

MARKED
for READING

DIFFERENT NOW

There is one big change in social life since 1952. That is the enormous impact that television has made on the lives of the people of Britain. This information may give you a shock. It did me. Four and a half million people now own television sets! The possession of television immediately seems to change people. Whereas formerly you could drop in on friends when they were having an evening at home, without any worry, it is now a question of consulting the television program—before you even dare to ring up suggesting a call!

—Joyce Osborn, home after two years in Tanganyika

Face-Lift for Palace

LONDON—Random jottings, as I sit at my typewriter in the garden with the temperature in the 80s, the sun beating down on me from a cloudless blue sky and adequate proof on hand that occasionally England does get some genuine summer weather.

I've been reading a copy of The Telegraph in which Marilyn Bell mentioned, among other things, that she was a trifle disappointed when she went to see Buckingham Palace that it was not a shining white palace as expected but, instead, rather a grimy, dirty looking affair. Too bad her trip hadn't been a couple of months from now—then she'd have seen a nice clean palace.

The Ministry of Works has just announced that the Queen's home is to have a face-lift—and not before it's time. Away back in 1935 was the last time the front of Buckingham Palace had a clean-up. Shortly, six men with scrubbing brushes and water are going to work on the soot-covered stone facade and six weeks later the job will be finished.

The ministry said nothing about doing the sides and the back, but since you can't really see these from the street I suppose they can be let go for a while longer.

One becomes accustomed here to things looking begrimed and rather run down. It's part of the "old world charm." But I must say that every now and then I get a yen to be living again in surroundings that are new and slick-looking. This feeling invariably comes when I am watching a lavishly mounted American movie, those super-color musicals in particular.

In those, all is modern luxury whether it is the interior of an office, a train or an apartment. Everything looks so clean and new and I emerge from the cinema to find that "dear old threadbare London" looks tatter than ever.

Of course, those movies aren't a completely accurate reflection of the surroundings in which everybody on the other side of the Atlantic lives. But the nub of truth is there.

I frequently get the feeling I'd like to sample again some new world charm. WHAT PRECISELY is a "false pretense"? An appeal court judge has just given the answer. How it cropped up was that a fellow had been sentenced to 12 months in jail for accepting money from a borough council on the promise that he would keep the pests under control in the borough throughout the year. He didn't do it, made no effort to do it. So the council sued him for obtaining money on false pretense and won the case.

But the appeal judge quashed it. Reason: To constitute a false pretense the false statement has to be of an existing fact. A promise as to future conduct not intended to be kept is not by itself a false pretense.

LONDONERS are flocking to a new French film called "Rififi." The big attraction is that it contains a 20-minute sequence in which no sound comes from the screen—not even incidental music. It's so quiet because the main characters in the film (a gang of crooks) are busy robbing the vaults of a jewelry shop.

So fascinating is it to watch how experts do such a job, that people have been wondering how it got past the censor. Said Britain's film censor: "It doesn't matter. Their methods are old-fashioned."

YOUR HEALTH

By DR. WALTER C. ALVAREZ

New Epilepsy Treatments

Dr. Alvarez is Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation.

Those many persons who wish they could get information on the newer treatments for epilepsy might perhaps get their doctor to show them a fine review of the subject by Dr. Frank B. Drake, of Denver. His article is in the American Journal of Medical Sciences, for July, 1955. He tells how the great Hippocrates, about 400 B.C., was the first physician to write that it is "folly to ascribe to divine malediction an affection that is wholly human."

Until 1857 there was no logical treatment for epilepsy, and then Sir Charles Locock discovered that in many cases bromides would control the seizures. In 1912 Hauptmann discovered the great value in many cases of phenobarbital, and in 1929, the related mebaral came into use.

The next great advance came in 1938, when Merritt Putnam discovered the value of Dilantin. Later, came the use by Lennox of the oxazolidine drugs in cases of petit mal (the momentary forgetful spells of young people) and later the use of more of the hydantoin drugs.

Today, Dilantin, used often with mebaral or phenobarbital or geminil, is the favorite drug for grand mal or the convulsive seizures. A disadvantage of dilantin is that often it's use increases the frequency and severity of the petit mal seizures. The usual dose is a capsule of 1½ grains, after each meal. This dose is increased until either the seizures are controlled or unpleasant symptoms appear. Other drugs can be taken with the dilantin.

DANGEROUS TO STOP
Phenobarbital seldom helps in cases of petit mal, and it may make "psychomotor attacks" worse. It can help when combined with tridione or paraldone. The best way in which to use phenobarbital is to take one good-sized dose at bedtime. It is dangerous suddenly to stop the use of the drug; this is likely to throw the patient into a state in which he has one convulsion after another.

Mebaral is thought to be a better drug than is phenobarbital. It can be combined with amphetamine which will combat the tendency to drowsiness. Mebaral can, with advantage, be used with tridione or paraldone. Geminil, which is almost as effective as phenobarbital, has the advantage of not producing so much drowsiness.

Bromides still are used successfully by

some experts on epilepsy. The usual dose is five to 15 grains two or three times a day.

Mesantoin often works well but it can cause serious damage to the blood-forming organs. Tridione is best for petit mal, and is often used with mebaral. It can bring out a tendency to grand mal, and it can cause serious poisoning.

Paraldone is often used in those cases of petit mal in which the spells are resistant to tridione. Prenderol is excellent for the relief of petit mal, but it has to be given with a "retarder" so that the effect will last long enough.

Phenurone is good in cases of psychomotor attacks but it can cause so many mental and other disturbances that it often cannot be used.

Myosiline will sometimes work well against grand mal when dilantin has failed, but in many cases it is a most unpleasant drug to take because of its side-effects. Milontin can be tried if tridione and paraldone have failed. Hibicon, a new drug, does not seem to be better than dilantin.

Patients on the newer drugs must have a blood count made at least once a month. Epileptics should avoid great fatigue, emotional storms, and the taking of much alcohol. Those epileptics who happen to have a violent temper must fight hard to keep it under control. Most of them know they must keep away from conflicts and arguments.

REMOVAL OF TONSILS

Many parents are wondering whether they should permit their physician to remove their child's tonsils. Obviously, in the end they must accept the opinion of a good general practitioner, a pediatrician, or a nose and throat specialist or the opinion of all three, reached at a consultation. Sometimes the tonsils are so large that, obviously, they are interfering with swallowing and breathing.

Through the years, a number of careful studies on thousands of children have been made, and all of them, so far as I can remember, indicated that tonsils do not have to be removed simply because they are a bit enlarged. The main indication for their removal is that the child is having frequent tonsillitis, or frequent bad colds that begin in the throat.

Some persons want to know if the tonsils will ever grow back. Sometimes they do to some extent, and occasionally the remnants have to be removed. Some parents wonder if the tonsil tissue that was put there in the throat by the Great Designer, but millions of children get along very happily after a tonsillectomy.

WEATHER SYNOPSIS

CITY'S WEATHER RECORD

Sunshine, 1955 1,367.1 hrs.
Last year 1,399.3 hrs.
Precip. to date 14.72 ins.
Last year 15.40 ins.

SYNOPSIS—

A weak disturbance moving southeastward over B.C. during the night was accompanied by scattered showers in the Cariboo and along the north coast but sunny skies will return in most areas this afternoon.

Another disturbance entering the Gulf of Alaska this morning will bring increasing cloud to the north coast tomorrow. In other areas fine weather will continue.

and 67.

CHILD DIES

WHEN DRAGGED

ON COW'S TAIL

BATH, N.Y. (AP)—A six-

year-old boy was fatally in-

jured Thursday night when

he got his hand twisted in a

cow's tail and was dragged

through a barn and a briar

patch. Tommy Crane had

gone to a neighboring farm

for milk. As the farmer

moved a cow from a stallion

the boy grabbed the cow's tail

to keep it from switching and

his hand became entangled in

the long hair at the end of

the tail.

HOME GARDEN

By HILDA BEASTALL

Display of Flowers
Can Be Work of Art

The growing of beautiful plants and flowers can be completely satisfying to a dyed-in-the-wool gardener. It is an end in itself, and for indoor pleasure it is sufficient for such folks to place a single blossom in a glass of water to admire at close quarters.

But once an attempt is made to group flowers together, one is committed to achieving a work of art. A design is needed, simple or elaborate, and the design will depend to some extent upon the material you wish to use.

Leaves and flowers are so abundant at this season, that if the urge to use flowers has never struck before, make an attempt now.

Some of the single-color pottery luncheon sets will yield a shallow dish suitable for the initial arrangement. A flower holder is essential for such a container, and the most useful for a beginner is a three-inch oval lead pin holder. Modeling clay stuck firmly on the bottom of the holder in small knobs will attach the holder to the dish. Press well on, having all surfaces quite dry and at room temperature. Cold or wet surfaces will never adhere.

Choosing a few simple flowers of the daisy type, for instance, try arranging them so that all blooms are facing one way. You will discover that every stem must be of a differ-

ent length, and that short stems are just as useful as long.

Make a design, either roughly triangular or rounded, being careful to bring some of the flowers down to the lip of the dish, thus masking the stems behind and pin holder.

The creating of the first arrangement will make you want to learn more. Books and classes for beginners are available locally.

First working director of the new newspaper will be Frank Owen, former editor of The Evening Standard and the Daily Mail.

"The paper will be tabloid in size and technique," Ellbeck said. He hopes to publish the first issue in March.

GERMAN TRADERS West Germany exported sewing machines to more than 100 countries in 1954.

NEW TABLOID For London Next Year

LONDON (Reuters) — London will get a new evening newspaper—The Sun—next year, the British newspaper trade journal World's Press News reported today.

It said the sponsors plan to make the paper "lively and provocative" and are aiming at a daily circulation of 2,000,000.

Chairman of the publishing company and editor-in-chief of the new paper will be James Ellbeck, who recently resigned from the Daily Mirror group.

Expelled Carpenters Taken Back But Still Barred From Office

VANCOUVER (CP) — The president of the AFL Carpenters' Union has revoked the expulsions and \$100 fines imposed on 20 officers and members of local 452 of the union.

However, the decision of the union's general president, Maurice Hutcheson of Indianapolis, leaves the 20 men stripped of office and barred from interfering or taking part in union affairs under penalty of permanent expulsion.

Eight executive officers, charged with spending union funds on leftist pamphlets, were dismissed by international representative William Page. Another 12 members were later expelled for "flouting authority."

Mr. Hutcheson's decision, sent in a four-page letter to each man concerned, followed an investigation here by a sub-committee from union headquarters.

See scenic Saanich Peninsula by bus—and beautiful Gulf Islands en route to Saturna Island aboard Mv. Lady Rose. Buses leave Coach Lines terminal 9 a.m.—meet cruise boat at Sidney. At Saturna Beach, stopover 2 hours, for famous Saturna lamb barbecue (available at \$1.50) or bring your lunch and picnic. Arrive Victoria 5 p.m. Return fares: Adults \$3.50; Children, \$2. (Includes bus, boat.)

Mission Asks Gagliardi for More Ferries

MISSION CITY, B.C. (CP)—The emergency ferry committee has asked Highways Minister Gagliardi for a more permanent service across the Fraser river and for extension of the present two-barge system to a 24-hour service.

The committee, headed by Harold Ball, chairman of Mission City board of commissioners, made the request Wednesday in a letter to the minister.

The committee was formed following the collapse of a 150-foot span of Mission's CPR road and rail bridge.

The letter requested Mr. Gagliardi to "immediately explore the urgency of installing a more permanent ferry service" and that the present barge service "be extended to cover the hours of midnight to 7 a.m."

TAKES ORDERS FROM THE SUN—This car is powered by light—natural or otherwise—which is converted into electricity by the photoelectric squares on its top. The model will be demonstrated at General Motors' "Powerama," display of power sources, to be held Aug. 31 to Sept. 25 in Chicago, Ill. The "Sunmobile" has no practical application in the auto industry, GM says, because it would be useless on a lonely dark road.

U.S. Ambassador, Son Killed in Thailand

BANGKOK, Thailand (AP)—American ambassador John E. Peurifoy and his nine-year-old son, Daniel, were killed today when the ambassador's sports car collided head-on with a truck on a narrow bridge 125 miles south of the Thai capital.

Peurifoy's elder son, Clinton, 14, was critically injured. The tall, handsome ambassador, who celebrated his 48th birthday Tuesday, came to Thailand last November after brilliant service in Greece and Guatemala. A career diplomat, he began his government service in 1935 as a \$90-a-month elevator operator in the Senate office building in Washington.

He had arrived in the resort Thursday with his wife, Betty Jane and their two sons for a 10-day holiday. Peurifoy came to Thailand after attracting wide attention in his role during the overthrow of the Communist-leaning regime while ambassador to Guatemala. During the last week major political changes in the Thai cabinet, placing Premier Pibul Songgram in undisputed leadership and moving police leader Phao Sriyanon to a secondary position, were rumored here as being due to Peurifoy's influence.

STAFF OFFICER'S VIEW

Copters Not Answer To Rocky's Prayer

CAMP GAGETOWN, N.B. (CP)—Despite the prediction of Maj.-Gen. John Rockingham, 1st Division commander, that helicopter-lifted soldiers will eventually replace paratroops, the army as a whole is not planning along these lines.

A senior staff officer said Thursday that the helicopter has many disadvantages and is "not the answer to the general's prayer."

Among the chief disadvantages of the helicopter are limited payload and range.

The latest helicopter about to be produced in the United States can carry only 2½ tons, or 12 men. And it costs about \$150,000.

However, the army does plan to use helicopters to a certain extent.

The chief intention now is to employ them for movement of vital supplies from division forward to brigade. But there is no plan that resupply of the entire 1st Division should be carried out by helicopters.

Wednesday night, a navy helicopter working here during the army exercise Rising Star required 1½ hours and nine trips to carry six tons of ammunition 10 miles.

One truck could have accomplished this job in less time, providing traffic was not tied up.

300 FISH PER NET

B.C. Salmon Run Picks Up

VANCOUVER (CP)—Hopes that the salmon fishing in British Columbia coastal waters would take a turn for the better brightened Thursday with reports of better catches and better weather.

Fog closed in over much of the fishing grounds early Thursday but cleared later in the day. An official of the Fisheries Association said there was every hope a continuation of the Fraser River pink run would be found in the Strait of Juan de Fuca.

Seiners working the Fraser were taking from 100 to 300 fish per net, mainly pinks and sock-eyes.

More than 100 gill-net boats were working in the outer straits. The Naas River run was reported to be improving daily and 80 purse seiners in Ogden Channel reported an average of 1,960 pinks daily from the 160,000 fish taken in that channel area.

Catches of 400 pinks to the boat were reported in the Skeena River area and fisheries officials said prospects there were excellent.

Citizens Hit High Value Put on Homes

COURTENAY (CP)—A delegation representing residents of 40 homes built by Central Mortgage and Housing Corporation has been appointed to discuss sale of the houses with city council. Occupants feel that the value placed on the homes, which have been put up for sale, is far in excess of the real value and that the interest rate of 5½ per cent on the unpaid balance "is unreasonably high."

A member of CMHC has been invited to attend a meeting Aug. 16 at which the matter will be brought to the attention of representatives of the provincial and federal governments, chamber of commerce and city council.

Luxton Dance Saturday
GLEN LAKE—The committee of the Luxton Hall has been busy with arrangements for a dance to be held there Saturday. The occasion is completion of a new floor in the hall, a project which has been underway for some time by the community.

Services for the Rodeo Rascals will be donated for the evening and all revenue from the dance will take care of the payment on the new floor.

SERIOUS BLAZE QUELLED BY VOLUNTEERS

LANGFORD — Volunteer firemen here Thursday successfully battled a blaze which threatened several dwellings and the Canadian Legion Hall. The fire, which started about 3:30 p.m., cut through a half-acre of brush on Durnford Road before being extinguished.

The fire was believed to have been started by a child playing with matches.

Second Bid Thetis Swim Defeats Pair

CHEMAINUS — A second attempt by Niels Nielson, 26-year-old longshoreman, to swim from Crossan's Beach to Thetis Island, met with defeat this week. He was accompanied by another swimmer, Jimmy Gellein, 17, on his latest try.

Victory was in sight for both swimmers when they were forced to give up because of the cold.

After two and a half hours in the water, Nielsen signalled it was too cold to continue and gave up his attempt. The younger Gellein, who has done considerable swimming in local water, hung on for five minutes longer, but was overcome by cramps in the leg and arms and was also forced to give up.

Nielson and Gellein had swum approximately three and three-quarters of a mile and were within a quarter mile of shore when the cold water beat them. Both will make another try at the crossing.

Washington Pulls Back On Tax Incentives

WASHINGTON (AP)—The government put something of a damper Thursday on the great industrial expansion boom that started when the Communists hit South Korea five years ago.

It called a halt on tax incentives for more than \$6,000,000,000 worth of proposed plants and equipment, pending a study of where the country now stands from a defence production standpoint. This study will take "a month or more," defence mobilization officials said, and after it, some of the incentives may be offered anew.

The cutoff, which industry had been expecting, took the form of an immediate shutdown on the granting of "rapid writeoff" tax concessions for new plants and equipment in 19 industries and a suspension of action on applications in 38 other industries.

Expansion plans amounting to more than \$6,000,000,000 are affected by the combined shutoff and suspension.

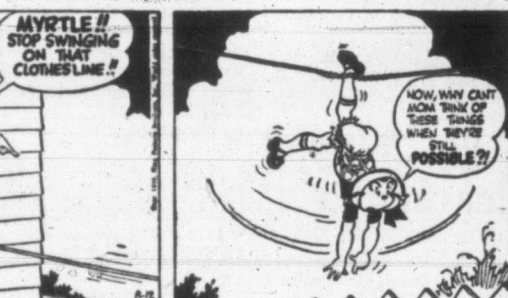

Mobilization director Arthur S. Flemming issued the order less than a month after Treasury Secretary Humphrey told a House of Representatives sub-committee that the program of tax incentives should be shelved or slowed down. Humphrey cited the cost in tax revenues and said the program was giving some companies an advantage over others.

The tax writeoff program was ended entirely in asbestos, lead, manganese ore, cement, tungsten, zinc, various alloying minerals, and certain tires. Applications from companies in these fields will be denied and returned.

Not affected in any way by Flemming's order are expansion goals of approximately \$3,300,000,000 in such high military priority items as aviation fuel, copper, nickel, mercury, titanium, and products ordered directly by the armed services and the Atomic Energy Commission.

To Evacuate Toronto (BUP)—The first large-scale civil defence test evacuation of Toronto will be made next May 1, metropolitan council chairman Fred Gardiner said today.

BOARDING HOUSE

Knowland Fears China Pressure For UN Seat

PITTSBURGH (UP)—Sen. William F. Knowland told 1,000 cheering American Legionnaires Thursday to "keep their powder dry" and expect fireworks if Communist China is admitted to the United Nations.

Knowland, addressing the 37th State American Legion convention, warned of a "chain reaction of catastrophic proportions" if the Chinese Reds gain membership in the UN.

He said Soviet Russia cannot control and has no responsibility for its junior partner... Communist China.

Knowland said Russia is stalling for time by making the free world believe the Communist tiger now has become a milk-fed pussy cat.

The syndicate that replaced Stalin is stalling for time. It needs that time to consolidate its power. Time is not necessarily on the side of the free world," Knowland said.

Death Toll Now Five In Maritimes Crash CHARLOTTETOWN, P.E.I. (CP)—The death toll in a car-truck collision 10 miles from here Wednesday night rose to five today when a six-year-old girl died in hospital.

The dead: Patrick Murray, Sr., Charlottetown; his nephews Leo Murray, Sr. of Augusta, Me. and Walter Murray, 10, of Charlottetown; his niece, Margaret Murray, 6, sister of Walter; and Betty Bernard, 15, of Hunter River, P.E.I.

Death of S. Korean Heightens Tension SEOUL (AP)—South Korean police said United States soldiers guarding Communist truce inspectors killed a Korean and seriously wounded two others in the pre-dawn darkness today at Wolmi island near Inchon port.

Police said the shots had been fired from a U.S. patrol boat guarding the island.

TLC Team to Investigate Island Construction Camps

A five-man committee to inspect living conditions in Vancouver Island construction camps was named Wednesday at a meeting of Victoria Building Trades Council, which will undertake to seek remedy where needed.

Conditions in existing camps are often poor and detrimental to the health of workmen, the council stated earlier this year when attempting to have a time limit imposed by the department of health on use of temporary accommodation.

On the inspecting committee are E. T. Staley, representing carpenters; D. S. Bushell, for painters, glaziers, and pile drivers; Charles Peck, for electricians; Cliff Parker, for operating engineers; and Vic Midgley, also for carpenters.

Cutlery Crew Can't Wait for Workmen

Carving out a new restaurant at 1900 Douglas for Victoria cafe operator, Paul Arsens, these hostesses and waitresses from his two other cafes brought their own tools. Sutton and Sons are completing the job. Mr. Arsens says new cafe will cost \$200,000, may be finished by Christmas. To be known as Paul's Drive-In Restaurant, it will seat 60, park 45 cars. It will

specialize in take-out dishes. Design is by Sharp and Thompson, Berwick, Pratt and Charles E. Craig. From left are hostess Ann Steers; director Mrs. P. Arsens; hostess Mrs. Natalie Bugyra; secretary Artie Morrison; waitresses Peggy Ross, Beatrice Miller and Heather Schacht. They represent Paul's Dominion and Paul's Sussex cafes. (Times photo.)

Acadians Mark Trek of 1755

MONCTON, N.B. (CP) — Acadia stamped a sturdy foot Thursday night and whirled in dance with her rugged Canadian brothers.

Acadians and Scots whose ancestors worked the soil of Nova Scotia almost side by side 300 years ago, English and French whose mother countries clashed long ago in bloody empire-building struggles and Irish whose fathers came to help develop a new land, joined in this city's festival of folklore.

Religious services, speeches, rallies and a parade, watched by thousands in a torrential down-pour, inaugurated the civic holiday festival that moves to Memramcook today, then to Halifax, and later to the string of original Acadian villages along the sea.

James Cardinal McGuigan of Toronto chanted an inaugural pontifical mass before 5,000. In a few remarks in French the cardinal, born in Hunter River, P.E.I., said he had been raised

Canada's Polio Rate Way Down

OTTAWA (CP)—The incidence of polio in Canada so far this year dropped to less than one-third of the average rate for the 1950-54 period.

The health department announced Thursday that 277 cases of polio were reported to Aug. 6 compared with the five year average of 848 to that date.

There were 148 cases of paralytic polio compared with an average of 405 for the five years.

Polio caused nine deaths to Aug. 6 compared with 39 to the corresponding date last year. No deaths occurred during the two weeks ended Aug. 6.

Total cases by western provinces with 1950-54 average in brackets: Manitoba, 9 (182); Saskatchewan, 18 (89); Alberta, 52 (120); British Columbia, 73 (86).

No cases have been reported yet this year in the Yukon and Northwest Territories.

Russian Says Atom Used As Cancer Cure

GENEVA (AP)—A Russian doctor told the atoms-for-peace conference today Soviet scientists have found radioactive isotopes of considerable value in "curative application" against certain forms of cancer.

Their use "holds out great possibilities," said the doctor, A. V. Kozkova.

RECORD OUTPUT

A record number of 626,000 British passenger cars and trucks was produced in the first half of 1955.

ALL-NIGHT TRIP IN AMBULANCE

Small Boy's Eye Pierced By Aerial of Car Radio

VANCOUVER (CP) — Six-year-old Bobby Jones of Silica, rushed to Vancouver by ambulance from Rossland with a serious eye injury, is in "fairly good" condition.

The boy, son of Mr. and Mrs. Russell Jones, was injured Saturday while playing with his brother and other boys. A car radio aerial entered his eye and he was taken to Rossland hospital for treatment.

Doctors there recommended that he be taken to Vancouver for treatment by a neurosurgeon, and the boy's mother accompanied him on the long ambulance trip. The ambulance left Rossland Wednesday night

AL Flag Race Back to Normal

By The Associated Press

The American League race had its old look today with Cleveland Indians, Chicago White Sox and New York Yankees scrapping for the pennant. Boston Red Sox and Detroit Tigers gave it a nice try but have slipped into the background.

And if Al Lopez and Casey Stengel finally have things going for them again, as it appears, Chicago may not be long around the top either.

Indians held their two-point lead by beating Detroit 3-2 Thursday. Second-place Chicago pounded Kansas City Athletics 14-1 and third-place New York, another three points behind, disposed of Boston 5-3.

By dropping two of the three games at Yankee stadium, Red Sox tumbled three games behind. Tigers, beaten in three at Cleveland, slipped eight games back.

EVERS KIDDED ALL THREE
Hoot Evers snatched a three-run homer off Billy Hoelt in the sixth inning for Cleveland's victory.

Early Wynn won his 14th of the season and his 188th major league success. Only Bob Feller, with 265, has more among the active hurlers.

Stengel had himself a ball managing Yankees. O'Casey juggled the batting order, one of his better accomplishments, and came up with a bunch who swatted on cue and rapped three extra base blows—two of them triples. It was all over in two frames as Yankees went off to a 4-0 lead against rookie Frank Baumann.

Bob Turley won his 13th. Ted Williams got his 2,000th major league hit in the game.

White Sox broke out for 14 hits and rapped loser Vic Raschi and reliever Cloyd Boyer for seven extra-base blows in support of Connie Johnson. Jim Rivera drove in five runs with two triples and a double.

ONE-HITTER FOR SCHMIDT

Those were the only games scheduled in the American League. Half the National League also took a rest. Brooklyn Dodgers, New York Giants, Philadelphia Phillies and Pittsburgh Pirates were idle.

At Milwaukee, however, St. Louis righthander Willard Schmidt limited Braves to only one hit to win the nightcap 4-0 as Cards swept a doubleheader. Milwaukee, beaten 7-1 in the opener on three unearned runs in the first inning, now trails Brooklyn by 16 games.

The one hit off Schmidt was Johnny Logan's lead-off single in the seventh. Stan Musial and Solly Hemus homered for Cards.

Cincinnati Redlegs used an unearned run in the 11th to beat Chicago Cubs 6-5, despite a home run by Cub shortstop Ernie Banks that gave him the major league lead with 38.

'WHEN MY BABY SMILES... WRITER DIES'
STAMFORD, Conn. (AP)—Andrew B. Sterling, 80, writer of hundreds of popular songs, among them "When My Baby Smiles at Me," died in hospital Thursday. He had been an invalid since he suffered a fractured hip two years ago. Among his notable songs were "Wait 'Till the Sun Shines, Nellie," "Meet Me in St. Louis, Louie," "Down Where the Swanee River Flows," "Last Night Was the End of the World" and "What Are You Going to Do When the Rent Comes 'Round."

OF PARALYSIS 'Oklahoma!' Star Dies On Road

MILAN, Italy (Reuters) — Funeral services were held here today for Jean Bradley of Philadelphia, 25-year-old star of the "Oklahoma!" touring company, who died suddenly of infantile paralysis Thursday night.

Her husband, Alfonso Checchio, other members of the cast of the American musical and a crowd of Italian admirers attended the service.

The troupe's hotel room and the theatre have been disinfected, and all members of the company inoculated.

The death of the star was described as "a bolt from the blue" by other members of the hit show's cast. Miss Bradley played her normal role Monday night.

Reuben Ship's 'Investigator' 2 Years Late?

LONDON (CP) — The Daily Mail says Canadian author Reuben Ship's satirical radio play, "The Investigator," came just a little too late.

Had it been written two years earlier, writes critic Peter Black, "McCarthyism would have been swamped by a cataract of laughter."

British listeners are to hear the now-famous comedy on the BBC for the first time Aug. 24. Black steals a march on his colleagues with a full advance review.

The performance of Toronto actor John Drainie in the lead role, he says, is "devastatingly complete, right down to the monotonous delivery and the breathless little grunts and giggles."

The play was first produced by the CBC in Toronto. The BBC calls it "a contemporary cartoon in sound."

City Must Complete New Sewer System After Contract Break

DUNCAN — The city will take over immediately completion of the \$60,000 sewer system here following failure of Adanac Construction Co. to fulfil its contract.

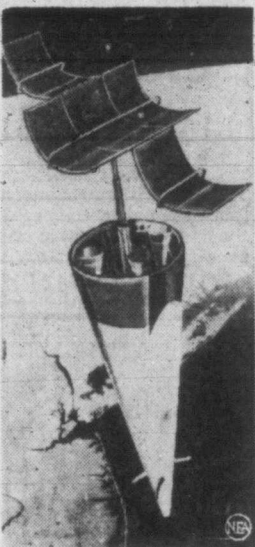

Breaking of the contract was due to ill health of the contractor, city officials said. The job is about one-half finished. Sewer lines in the project will supply sections of north and east Duncan not included in the original sewer system.

WINNIPEG BALLET GETS YUGOSLAVS

WINNIPEG (CP) — Two ballet stars from Yugoslavia have been engaged by the Royal Winnipeg Ballet and are now en route to North America by sea after a brief visit to England.

Robert Kipp, president, announced Thursday that Nenad Lhotka, principal male soloist and choreographer of the Theatre National Croate, Zagreb, Yugoslavia, has been engaged as ballet master and choreographer of the RWB. His wife, Jill Morse, native of Swinton, England, who uses the stage name, Jill Alis, will join the company as one of the principal ballerinas.

Drug 'Bosses' Refused Bail

Magistrate Refuses to Free Foursome Nabbed in Vancouver

VANCOUVER (CP) — Four Montreal men, one of them described as "the boss of drug distribution in Vancouver," Thursday refused bail on narcotics trafficking charges.

City prosecutor Stewart McMorran named Robert Tremblay, 33-year-old steamfitter, as the top distributor when five persons appeared before Magistrate Oscar Orr to apply for bail.

Along with Tremblay, bail was refused for Lucien Mayer and Marcel Frenette. It was refused earlier for James Maligne and \$15,000 bond set for Charles Talbot.

The men were charged after 27 persons were arrested in a raid on suspected drug traffickers by RCMP and city police. Another man, Michael Findlay, was arrested Thursday and charged with trafficking.

RESERVES DECISION

They have also been charged with attempted murder of self-confessed former drug addict Thomas Kinna. Only Talbot was granted bail—set at \$15,000. Bail for Maligne was refused and magistrate Orr reserved his decision on the other three.

Lawyer Hugh McGivern, counsel for the quintet, said: "Regardless of what the newspapers say about these men being drug kingpins, they are not here to be tried by the press."

Although Tremblay was born in Vancouver, police said he, and the four who have been charged with him with conspiracy and attempted murder, arrived here recently from Montreal.

In pleading Tremblay's case for bail, Mr. McGivern told the court: "Tremblay is always available. His father has been

Law Won Race With Crime For Two Lives

VANCOUVER (CP)—Two police forces raced the underworld for the lives of two undercover rookies and won, Det. Sgt. Archie Plummer disclosed here Thursday.

Sgt. Plummer headed a 13-man striking force which, in conjunction with a similar body under RCMP Sgt. Harold Price, rounded up 27 persons Tuesday and charged them with trafficking in drugs or conspiring to traffic.

Sgt. Plummer said in an interview Thursday the raids were touched off ahead of time to save the lives of constables Bob Deventer and Ken Scherling.

The two, fresh from police school, masqueraded as drug addicts from March 24 until last Tuesday, making purchases and gathering evidence.

"The obvious peril they were in was one of the factors that forced us to move sooner than we expected," he said.

Two Schools To Train Air Controllers

OTTAWA (CP)—Two special schools will be set up at Toronto and Winnipeg to train air traffic controllers, the transport department announced today.

The schools will open about Nov. 15 and will take about 120 students. Each will get pay of \$197 a month while training. If successful, they will get a starting salary of \$270 a month as full-fledged air traffic controllers.

Those selected for training will get a three-month theoretical course at the schools, followed by three months of orientation in an airport control tower or area control centre.

The department operates more than 100 airports across the country.

4 Watches Found In Brassiere Of Drug Suspect

VANCOUVER (CP)—A 46-year-old man and a 48-year-old woman are being held by police as suspects of peddling narcotics. Both were observed driving up to the home of Robert Tremblay, arrested Tuesday during the mass roundup of suspected narcotic dealers.

Police said they found a number of watches and other articles believed to be stolen in the car. Four wrist watches were later found in the woman's brassiere. The man had \$244 in his possession, tied up in four separate bundles.

Tremblay is also one of five men charged with attempted murder June 11 of Thomas Kinna.

YOU CAN'T TAKE IT WITH YOU? THIS THIEF COULD, AND DID

SPOKANE (AP)—R. A. Lewis beached his boat on the bank of Spokane River and then chained and padlocked it to a tree.

The precautions were in vain, he told police—someone cut down the tree and stole the boat.

Weather Control Nearing—Teller

SAN FRANCISCO (AP)—Dr. Edward Teller, famed atomic scientist, said Thursday mankind may be near the point of accurately predicting—and even controlling—the weather.

Teller told the Air Force Association in a convention address that because of atomic research developments of recent years, "scientific intervention in the weather may become practical within the next 10 years."

"But when man gains this new control over nature his wisdom in using the new power will be put to a very severe test," said the University of California professor of nuclear physics.

The same weather will not satisfy everyone.

Royal and Ancient Custom: a Schweppes Tonic Drink...

COMMANDER WHITEHEAD, the ubiquitous Man from Schweppes, has just defeated Colonel Bogey for the first time in his life. Reward? At least one tonic drink. Mixed with the incomparable Schweppes Tonic Water.

Says the Commander: "So enticing is the thought of Schweppes cool, bitter-sweet taste, that many a man has made his first hole-in-one just to get to the clubhouse (and Schweppes) all the sooner."

Schweppes carbonation also sets an international standard. It's a locked-in carbonation they call Schweppervescence—and it lasts the whole drink through. Schweppes bubbles never waste themselves exploding in the bottle... or even in your glass, as long as you don't disturb it. But when you drink Schweppes, you'll find each little bubble bursts upon

your tongue, heightening the flavour of your tonic drink.

Connoisseurs say it should be unconstitutional to make a tonic drink without Schweppes. So stock up now for summer. Schweppes Tonic Water costs about the same as ordinary brands, because it is now bottled here from the original imported elixir under the eagle eye of Commander Whitehead.

P.S. Schweppes also make the emperor of all the Ginger Ales, and a great Club Soda. Enjoy the whole family of Schweppes world-famous beverages—Schweppes Tonic Water, Schweppes Ginger Ale and Schweppes Club Soda.

AVAILABLE at your grocer or local store BY THE BOTTLE, BY THE 6 BOTTLE CARTON and BY THE CASE.

FAMOUS SINCE 1794

Schweppervescence lasts the whole drink through

1956 ADMIRAL TV comes to IRENE'S

HERE THEY ARE! THE FIRST SHOWING OF THE NEW 1956 ADMIRAL TELEVISION MODELS, WITH THE SAME CHASSIS IN ALL THE MODELS... NEW CONTROLS, NEW CABINET DESIGNS, NEW "LAZY SUSAN" BASES, NEW INCREASED POWER! SEE THEM AT IRENE'S FURNITURE TODAY OR TONIGHT!

HERE ARE JUST A FEW OF THE FEATURES...

NEW SUPER CASCODE CHASSIS... WORLD'S MOST POWERFUL!

Admiral engineers have designed the greatest TV chassis ever built! Admiral's all-new Super Cascode Chassis has a full 20-tube complement, transformer operated and features Admiral's famous Turret Tuner. It has additional circuits for extra signal-pulling power that over-ride city interference... tall buildings and difficult terrain. No matter where you live, you get dazzling performance on local and distant stations. Admiral's new Super Cascode Chassis sets the standard for TV dependability, too. Over 60% of the circuits are automatically assembled by foolproof, precision machines. Only with Admiral can you be sure of longer trouble-free performance!

NEW ALUMINIZED PICTURE TUBE with Optic Filter

A "Magic Mirror" of aluminum inside the tube beams all picture light out towards you for double the brightness... dark-tinted Optic Filter screens out glare and "haze."

Plus a New Space-Saving Cabinet-Design

NEW THREE-DIMENSIONAL Picture Frame

Striking "stage setting" for your TV picture that provides a new dimension for depth and realism. Includes main controls as functional part of its design. Removable picture window lets you take off safety glass yourself from the front to clean picture tube.

'Biggest' PNE Has New Look

'Gayway' Enlarged; Circus Booked; Daily Horse Races, Band Concerts

With the Aug. 24 opening date drawing near, Pacific National Exhibition officials report arrangements completed for an outstanding program, and competitive department entries at capacity levels, for the 11 days of the big fair at Vancouver.

Starting with the great opening day parade, the program, variety and number of events is reported to be the greatest in the history of the PNE, which last year attracted 871,426 visitors to make the fair the fifth largest on the continent.

Attraction-wise, the program is headed by the Shrine-PNE Circus, produced by Polack Brothers, and the internationally famous "Dancing Waters" show, a spectacular and colorful presentation.

The Gayway, with many new rides and games, also features the famed "China Doll Revue," a family show and top night club attraction making its first appearance at a fair. And there is the daily card of eight horse races.

SIX CONCERTS

Free attractions abound. There are at least six band concerts daily either at the Free Outdoor Theatre, the bandstand in front of the B.C. Building or the Armed Forces Centre. The Outdoor Theatre has daily entertaining programs from noon-time to 10 p.m. Then there is the colorful and impressive Sunset Ceremony being staged by the armed forces nightly, except Labor Day. Four fashion shows a day are offered in the Home Arts Building.

A sensational free attraction will be the world's champion tree climber, Danny Sailor, giving two performances daily, 1 p.m. and 6 p.m., on a 100-foot spar pole in front of the B.C. Building. His act on top of the spar is a "spine-chiller."

Magic contests, featuring the top of the Pacific Northwest's magicians, will be held hourly on the hour, starting at noon in the Hobby Show, again crammed with interesting exhibits.

Livestock, horticulture, home arts and poultry show report many new features offered. There will be many free light horse shows. In the 4-H and Future Farmer Show, the British Columbia young people will also play host to a boy and girl being brought by the P.N.E. from Israel by way of Amsterdam and "over the pole" via Canadian Pacific Airlines.

Mink shows occupy the first four days in the Dog, Cat and Mink Building. Then follow two days of championship cat shows, two days of licensed dog obedience trials and, finally three days of championship dog shows.

The British Columbia Building, with its 80 by 76 feet relief map, has several new exhibits this year. Commercial exhibits in the various buildings and in outside areas also offer

entertainment in addition to educational displays. Included in commercial entertainment is the famed Calypso Band from Trinidad playing hourly during the day. Commercial exhibitors are also featuring a wide variety of free contests. Still another feature is the new armed forces display.

Advance sale tickets are on sale in most parts of B.C. and Northwest Washington up to fair time at three for \$1 as compared with 50 cents each at the gate. While there is no prize drawing with the tickets, the program sale inside the grounds during the fair features a host of prizes including an automobile and other prizes daily, also a grand prize of a furnished house complete with lot located on the north shore of Burrard Inlet.

Sinclair Hurts Leg In Stair Collapse

OTTAWA (CP)—Jimmy Sinclair's Russian odyssey has been interrupted by a 15-foot fall in an eastern-Soviet port where he is in hospital recovering from a deep gash in his left leg.

The 47-year-old fisheries minister, accompanied by his executive assistant, Alistair Fraser, was visiting a drydock at Petropavlovsk, on Russia's eastern coast, when a stairway collapsed and the two Canadians dropped some 15 feet to the floor below.

Officials here said Mr. Sinclair, a tall, rugged Scot, was taken to a Petropavlovsk hospital suffering from the deep gash and a number of bruises. The Russians stitched his leg and placed it in a cast as an extra precaution. His condition was reported as satisfactory and he is planning to resume his journey in about 10 days.

Mr. Fraser, 32-year-old son of Lieut.-Gov. Alistair Fraser of Nova Scotia, also was shaken up and bruised, but was released from hospital after treatment. It was not known here whether any Russian was involved in the accident.

Petropavlovsk is a Kamchatka peninsula fishing centre on the Bering sea.

Officials here said the accident occurred last Thursday.

BLINDFOLDED SCOUTS KILLED

NEW PHILADELPHIA, Ohio (AP) — Two boy scouts, taking a "blindfolded" test under the guidance of their leaders, were killed Thursday night by an automobile. A third blindfolded scout was injured. Police said they were taking the test, designed to see how well scouts can rely on senses other than their sight, when a car came around a bend in the road and ran into them.

NEW CHAMPION among Pacific Northwest senior golfers is Pete McIntyre of Trail (left) who this afternoon defeated Harry Andrews of Tacoma 4 and 2. McIntyre, who is B.C. senior champion, is the first left-handed

golfer to win the event, and the first Canadian to come out on top since 1943. It was the 33rd annual tournament of the Seniors' Pacific Northwest Golf Association and was played at the Victoria Golf Club links. (Times Photo.)

Mass Swim Across Strait Awaits Weather

Four Challengers Ready for Plunge

The biggest onslaught on the Strait of Juan de Fuca, scheduled by four swimmers tonight, appears doomed to postponement because of unsettled weather conditions. Wind-whipped seas continued to run this afternoon and there was every indication the swim attempts will be postponed until Saturday night.

Weather outlook for overnight and Saturday appeared at noon to be consistent with the past few days, during which gale winds have caused a swin-blocking swell and heavy chop. Looking for subdued weather are Janice White, 18-year-old from Toronto; Bob Quinn, 23, also of Toronto; Bill Muir, 35, Saanich municipal surveyor; and Douglas Rivette, 44-year-old deaf-mute of Vancouver.

Rivette and Quinn will be making their initial tries, Miss White her second and Muir his third. Muir's first was from the Canadian shore, his second from Ediz Hook on the Washington shore.

SATURDAY TRY

If swims are cancelled again tonight, the four plus Victorian Bob Bowden will try Saturday night, weather conditions permitting.

All but Quinn plan to make their attempts from Gonzales Point, off Oak Bay Golf Course, with Quinn preparing his departure from Clover Point, about two miles away.

Starting times for Rivette and Quinn are both 10 p.m. to 10:30 p.m., while Muir's navigator has set 9:30 to 10 for his departure.

Bowden, 23-year-old former mill worker, planned for a Saturday try two weeks ago when his first attempt was called off because of leg cramps.

Winds, ranging from 13 to 28 miles an hour with gusts to 35 m.p.h., have been caused by a weather system moving down the coast from the Queen Charlotte area.

A second system is on its way from the same general area and is expected by the weather office to create similar wind conditions in Juan de Fuca Strait.

Miss White, who intends to leave Gonzales about 8:30 p.m., said she would continue to try for a take-off up to and including Monday.

Should weather still interfere, she will postpone further tries until August 25, when another favorable tide is expected.

Teacher Held Partly Liable In Accident

Mr. Justice A. D. Macfarlane in a judgment handed down today held a Duncan school teacher 60 per cent liable for injuries she suffered when she was struck by a car driven by Stanley Cummer, Vancouver newspaperman.

Regina Bernadette Belou, plaintiff, sued Mr. Cummer for loss of teaching time, medical expenses and hospitalization as the result of an accident on Duncan's James Street on the night of Nov. 14, 1953. She was struck by the car while walking on the street.

In his decision, Mr. Justice Macfarlane said the teacher should be held responsible in "a greater degree" for the accident than the driver. Evidence showed the plaintiff walked obliquely into the side of the car, he said.

Mr. Justice Macfarlane added the driver also was partly responsible because he should have been able to swerve his car sufficiently to miss the teacher. Moreover, the justice said, Mr. Cummer was driving with his lights on low beam.

"Driving with lights at low beam was not justifiable as there was no on-coming traffic," Mr. Justice Macfarlane said.

The justice allowed the special damage of \$842 for medical expenses and fixed the general damage at \$3,000. Of this sum Mrs. Belou will receive 40 per cent.

Gas Thieves Pay \$50 Fines

Fines of \$50 or 15 days in jail each were imposed on Charles W. Collette and Louis Impy, both of Victoria, when they pleaded guilty in city police court today to a charge of stealing gas under \$50 value.

Police said they were apprehended early this morning while sitting in their car. Court was told the two had siphoned about five gallons of gas from a Central Cartage Co. Ltd. truck.

Hadgraft Funeral Planned Saturday At Vancouver

Member of a family which settled here in 1894, Mrs. Frances Catherine Hadgraft, 77, died Tuesday in Chatham House Hospital, Vancouver.

The former Fanny Eccles, Mrs. Hadgraft was the daughter of Robert Eccles, who brought his family here from California.

She left Victoria with her husband in 1921 to live in the up-Island town of Extension, and later moved to Vancouver.

She is survived by her husband George Hadgraft, three daughters, Mrs. D. Davidson, Mrs. R. Bianco, Miss Helen Hadgraft, her sister Mrs. Mary McMorris, three grandchildren, all of Vancouver, and two brothers Robert C. Eccles and James H. Eccles, Victoria.

Funeral services will be held Saturday at 9 a.m. in the Mount Pleasant Funeral Parlour, Vancouver.

Lord Mayor Leaves For Victoria Visit

Port Angeles Enthusiastic On Visit Plan

Mayor Smith Sees Strong Support

The City of Port Angeles officially informed Mayor Claude Harrison of Victoria today that it would wholeheartedly support a plan for annual intercivic celebrations.

Mayor Harrison said he will now contact all local organizations which likely would take part in the venture.

He hopes to arrange a meeting of representatives to work out details.

A letter received at city hall this morning from Port Angeles city manager G. S. Vergeer stated that "Mayor (Ivor) Smith and the city of Port Angeles wholeheartedly supports the suggestion."

"Mayor Smith feels confident that such celebration will be supported by all local civic organizations and would result in closer relationship between the people of your fine city and those of Port Angeles."

When? The letter added that Port Angeles officials are looking forward to determination of dates and further planning.

It is expected that following initial groundwork here and formation of a planning committee, a meeting will be held between the two cities. Port Angeles chamber of commerce has already asked that such a meeting be set.

Mayor Harrison announced the plan last Monday. It calls for an exchange of visits of the population of both centres twice a year. Church, youth, and labor groups, service clubs, lodges and sports organizations are slated to hold get-togethers on an international basis.

The plan depends in part on co-operation with shipping companies regarding excursion rates and on registration of families in both communities who would be hosts for a day to families from across the border.

Community leaders here have expressed support of the plan.

Here Two Days At Month's End

The globe-trotting Lord Mayor of London, just back from a week's Moscow visit, takes off from London Saturday for a two-day visit here.

Sir Seymour Howard is due to arrive the afternoon of Aug. 30 and will spend the night and that of Aug. 31 as guest of Lieutenant Governor Clarence Wallace.

Details of the visit were made known today. While here, he will address a combined luncheon of the Victoria Chamber of Commerce and the Canadian Club at the Empress Hotel, August 31.

On the 30th, he will meet with Mayor Claude Harrison. The 67-year-old stockbroker flies to Amsterdam Saturday and then off for the transpolar flight to Vancouver. He will be accompanied by his swordbearer and first squire, William T. Boston.

Later they fly to Whitehorse and sail up the Yukon River in a sternwheeler to Dawson City. They will also visit Banff and Calgary to take part in Alberta's Silver Jubilee celebrations.

It will be Sir Seymour's first visit to Canada, but Boston has toured the country twice, in 1936 and in 1951, with the then Lord Mayor Sir Denys Lawson. Sir Denys officially opened the Douglas Building here three years ago.

Mr. Boston said he and Sir Seymour will bring their official robes and the 10-pound ornate council sword.

SIR SEYMOUR HOWARD ... bringing robes, sword

berta's Silver Jubilee celebrations.

It will be Sir Seymour's first visit to Canada, but Boston has toured the country twice, in 1936 and in 1951, with the then Lord Mayor Sir Denys Lawson. Sir Denys officially opened the Douglas Building here three years ago.

Mr. Boston said he and Sir Seymour will bring their official robes and the 10-pound ornate council sword.

Elk Lake Start Set For Labor Day Swim

The Sadler Cup Labor Day swim committee ruled Thursday night the distance contest will definitely start at Elk Lake and finish at Beaver in spite of Mayor Claude Harrison's suggestion to the contrary.

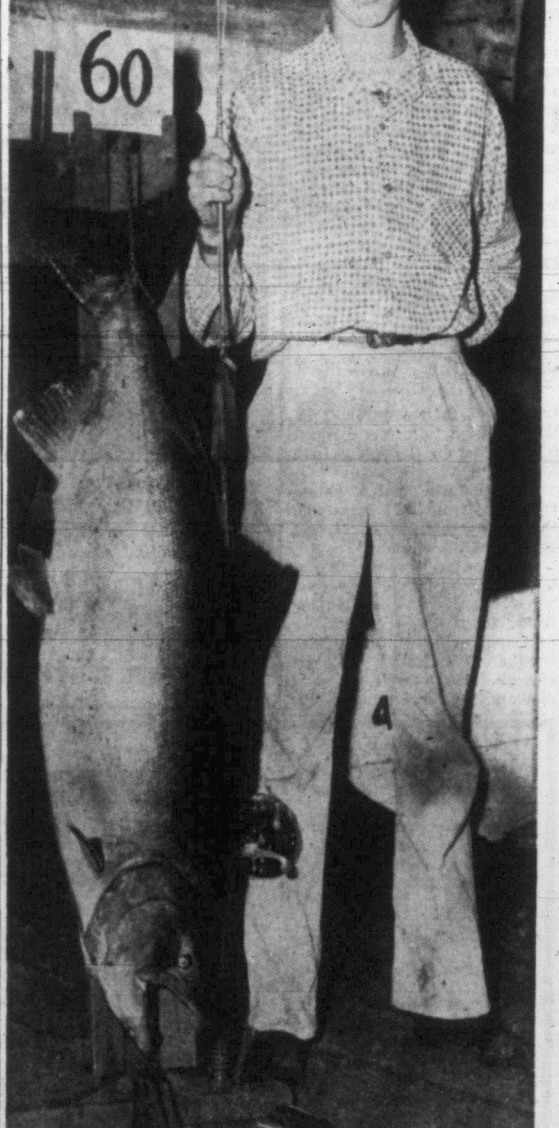

Mayor Harrison, who proposes to award a cup, said earlier if the route was reversed more people would be able to see the finish.

But the committee feels crowds of spectators will be able to stand around both banks of Beaver Lake on sloping ground. Special parking facilities are being arranged in order that more space will be available to spectators in vicinity of the Lakeside Team room.

CONGESTION FEARED It also was felt if the race started at the Beaver Lake end there would be too much congestion as the 55 contestants sought to pass through a narrow connecting channel between the two lakes.

Starting from Elk, the swimmers are expected to be strung out by the time they reach the channel. Strait swimmers Bill Muir and Janice White have devoted several evenings to coaching the young contestants this week. All contestants must be 16 or under.

The committee said there is still a shortage of boats for training and race purposes. They will be picked up by the committee on request to 9-4131. Official application forms for competitors are available at the Lakeside Team room. Any youngster taking part who has not yet submitted his parents' written approval must do so before closing date, midnight Monday.

EIGHTEEN-YEAR-OLD Barry Brown of Port Alberni will get a diamond-studded pin from the Port Alberni Yee Club for this huge 60-pounder he pulled in this week. The Yee is the largest landed on regulation sports tackle in the area for a long time. Barry took three-quarters of an hour to land the big 'un, using an Alaska plug and flasher. Catch was made in Port Alberni Harbor.

BETWEEN TIMES

By MONTE ROBERTS

We are fast approaching the season of the year when the less stable citizens go wacky over baseball. In fact, I suspect we are already in that season, a bit early this year because of a somewhat close situation near the top of the American League.

So I guess it is about time to let loose my annual blast about the foolishness of it all.

This foolishness, of course, will reach its peak during the games of baseball which are laughingly called the "world series."

The winner of these games will be declared the "world champion of baseball," and a more inaccurate title I could not imagine.

Why, only a tiny portion of the world is represented at this so-called world series. Not even the United States as a whole takes part—just teams from that portion of the United States extending from Chicago east.

And as for the rest of the nations of the world, they are ignored, with utter rudeness. Is Canada invited to send a team? Is England? France? Pakistan? Tibet? Luxembourg?

Of course not. So how can they call this ridiculous farce a world's championship?

How are they going to prove that our own Farmer Construction team couldn't beat the Cleveland four straight? But that is an academic question, and one of little interest, as baseball itself is the dullest and least interesting of sports ever devised by man. In baseball, less goes on over a longer period than any other game in the world.

Compared to baseball, cricket is faster than Jai Alai with skates on.

However, none of this is germane to the main point of this thesis: to wit, how is it that everyone becomes an expert when world series time rolls round?

People who pay no interest during the regular (and long drawn out) season become rabid fans as the home stretch is approached. People who've never seen a big league game start spouting batting averages and telling you who should pitch tomorrow.

As far as I can see, it is nothing but mass insanity, and a sure indication of the deterioration of man.

MEMO

From: Sports Editor. To: City Editor: Please, please, do something about Roberts. He has my whole staff disrupted asking them who's ahead in the AL, who's pitching for Boston, what was Williams' average again, is it true what they say about Camp?

And I have tried to tell him I won't let him write a baseball column, but all he does is pout. Please, please do something about Roberts—at least until baseball season is over.

TOPICS OF THE TIMES

City Hall employees who sign up for a special fall and winter course in municipal administration will be able to pay the \$70 fee on the installment plan, it was announced this morning.

City comptroller Dennis A. Young said the city will pay the fee for any employee taking the course and recover the sum by payroll deduction over a seven-month period.

B.C. Teachers' Summer School choral group will present a program of songs over CJVI, Sunday at 9:30 a.m. Director is Sherwood C. W. Robson, head of the department of music, John Oliver High School, Vancouver.

Registrations are being received by the Victorian Order of Nurses for an eight-week parentcraft class which begins August 22. For the first time married couples will attend classes together. Miss L. C. M. Henry will be instructor of sessions each Monday at 8 p.m. at the city health and welfare centre on Cook Street. VON registration phone number is 3-9013.

Charge of blasting without a municipal permit brought a fine of \$10 for Elmer Judson King, 655 McKenzie, when he appeared in Saanich police court Thursday.

Police said the accused blasted stumps August 3 on property off Westholme Road without obtaining a permit.

G. Kournassoff of Lagoona Jersey Farm, Chilliwack, will speak before the Victoria Branch, Canadian Council for

Animal Welfare, on the effects of fluoridation on animals at the YWCA on Monday at 8 p.m. The meeting will be open to the public.

Two more Victorians have entered exhibits in the Pacific National Exhibition, which opens in Vancouver, August 24.

Local poultryman Arthur Adams, 4010 Cedar Hill Crossroad, has entered a pen of white leghorns in an egg-laying contest, poultry and pet section.

Mrs. Janet Carr, 2703 Avebury Avenue, has three entries in the textile section of the home arts show.

A soldier, Norman M. Braid, was remanded to Saturday for sentence after he pleaded guilty in city police court today to a false pretenses charge.

Court was told the accused obtained \$17.51 cash from a local Chinese merchant July 16 by means of a worthless cheque.

Two hundred and eighty gunners of 4 Light Ack-Ack Battery will return to Work Point Barracks August 21 after a two-month concentration for summer training at Camp Wainwright, Alta.

The battery will arrive by convoy in the late afternoon following a ferry trip via Nanaimo from Vancouver.

Fresh Locally-Grown Foods Flooding Downtown Markets

By PENNY SAVER

Here we go again. Yup, time for week-end food shopping. Have you kept a sharp eye on the fresh fruit and vegetable prices this week? If not, read on, and I'll tell you what I've seen. For one thing, new potatoes, local ones, are just 25 cents for seven pounds. Isn't it a shame that we haven't some way of keeping potatoes just as they are, with their new summer taste, until winter-time? There are a number of very effective and good-tasting potato products, such as tinned ones, dehydrated ones and frozen ones, but no one can deny that the illusive special taste of new potatoes cannot, or at least, has not yet been captured.

Local vegetables are in full swing now. Beets are three bunches for 25 cents. Now's the time to be canning or pickling them. Local peas, which taste so good with new potatoes and a cream sauce, are selling at two pounds for 25 cents. Broad beans are going down, too. Now two pounds for a quarter. Corn on the cob is 39 cents for five. Marrow, small tender ones with lots of flavor, are 10 cents a pound. Crunchy celery, so versatile in its summer use is at a low price of 10 cents a stalk. Green onions for the lunch or dinner salad are 15 cents for two bunches.

Making relishes to put away for winter? What you need are tiny green peppers, simply bursting with tangy taste. They're now 40 cents a pound. Radishes, really red and crispy ones, are six cents a bunch.

Let's move on to the fruit section. While looking at the cherries today, I was told that those of you who are waiting for local cherries that you usually buy at the last minute for

canning, had better get a move on. Local cherries are almost through, an authority told me. They're getting scarce around Victoria, and the Okanagan cherries are at the last of the pickings, too. Montmorency cooking cherries are two pounds for 45 cents, while bings are 28 and 35 cents a pound. Pears are four for a quarter, as are peaches. Sweet boysenberries are 25 cents a box, and raspberries, 23 cents in some stores, and two for 45 cents in others. Logans are 39 cents for two boxes.

Gravenstein apples are two pounds for 28 cents or 15 cents a pound. Cantaloupes (specially good with a scoop of ice cream in the centre) are selling for 15 cents each, much lower in price than a few weeks ago. Seedless grapes are 22 cents a pound, while the mauve Malaga grapes are 23 cents, and the Ribier (deep purple) are 22 cents. Blueberries are 35 cents a box, and Okanagan apricots, with bright red cheeks, are 16 cents a pound. Happy shopping!

WHY GROW OLD?

By JOSEPHINE LOWMAN

Pregnancy Need Not Leave You Flat Busted

Q—"When I got married my measurements were bust 35, waist 24, hips 36 inches. Now they are bust 32, waist 24, hips 36. I do not know whether or not this has anything to do with the bust but I have three children. They were bottle fed babies from birth. I have heard of women whose busts grew bigger after having children but never smaller. Please explain this. I am only 20 years old. 5 feet 5 inches tall and weigh 125 pounds."

A—"A woman is much more apt to lose inches in the bust-line than to gain them, due to pregnancy. But this need not happen if she knows how to care for herself during pregnancy. Sometimes a woman who is underdeveloped will have an increase due to glandular stimulation."

A woman should wear brasieres especially designed to support the increased weight of the busts. If she nurses her children she should lie down when doing so. I have known many women whose busts were little changed after nursing babies. Pregnancy should not spoil the bustline. Great care should be taken to wear the baby gradually, for the sake of your bustline as well as your child.

If you find that your bust-line has decreased take chest developing exercises for an increase in this measurement. If you would like to have my bust exercises send a stamped, self-addressed envelope with your request for leaflet No. 7 "Flat Bust—Round Shoulders? Reverse!" to Josephine Lowman in care of this newspaper.

Q—"Will you please tell me how to make a good French dressing which has very few calories? I like salad greens but not without French dressing."

A—"Use tomato juice as a base and then add onions or garlic, salt and pepper, to taste. Q—"Is it just as good for health to drink tomato juice as to drink orange juice?"

A—"Both are valuable foods because of their vitamin C intake. Orange juice has a much higher vitamin C content than tomato juice."

Q—"How can one best obtain enough vitamin D? I am told that many people do not get enough of this vitamin."

A—"Vitamin D is widely distributed through the food world but in very small quantities. Sunlight is one of the best sources but during winter weather we may not get enough. Eat a well balanced diet and reinforce your menus

End-of-Month Wedding Vows

Mr. and Mrs. V. W. Shiels, of Sointula, B.C., recently announced the engagement of their eldest daughter, Miss Gladys Irene Shiels, to Mr. John Henderson Mitchell, son of Mr. and Mrs. W. H. Mitchell, 1513 Hampshire Road. The wedding will take place in St. Mary's Church, Oak Bay, on August 31 at 7.30 p.m. with Archdeacon A. E. deL. Nunn officiating. (Photos by Campbell Studio.)

AS WE LIVE

Write Everything Down, 'Scatterbrain' Advised

By ELIZABETH B. HURLOCK, Ph.D.

A "scatterbrain" is a person who is not very well co-ordinated mentally. He does things without thinking of their consequences, on the impulse of the moment, and fails to plan ahead with the result that he forgets even important things. Is there any cure for such a person?

Hurlock only Tuesday. I really need help, as I can't go through life this way."

(A)—You needed help long ago, and it is a pity that someone did not help you before you grew up. However, it is never too late to learn, though it will be harder for you now than it would have been when you were a child and your scatterbrain behavior had not yet settled into a habit.

What you need is some system in your life. You are the only one who can put it there. The best way to start is to get yourself a notebook and pencil and an engagement pad. Every night, before you go to bed, make a detailed list of things that must be done the next day, indicating just when they should be done, even to the hour.

Put this list on your engagement pad and copy a list of the things from the pad into your notebook for the morning duties. Then check at noon to see if everything has been done and copy from the engagement pad into your notebook what you are to do in the afternoon.

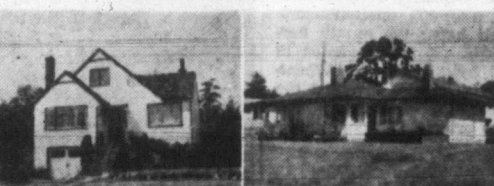

Using this system, you will have at least three checks a day on your duties, morning, afternoon, and evening. That should go a long way toward helping you to become less scatter-brained and more efficient.

TODAY'S RECIPE

CRAB MEAT-STUFFED TOMATO SALAD

When well-shaped red tomatoes are stuffed with tender Canadian canned crab meat they become main dish salads. For additional flavor and texture surprise, add drained pineapple chunks to this basic recipe.

1 can Canadian canned crab meat, drained, 4 or 6 medium tomatoes, 4 tablespoons salad oil, 3 tablespoons vinegar or lemon juice, salt and pepper, mayonnaise.

Remove stem end from tomatoes. Scoop out pulp, leaving a thick case. Invert to drain. Chill. Combine oil, vinegar or lemon juice, salt and pepper. Beat until thickened. Pour over crab meat. Chill for 20 to 30 minutes. Drain well. Combine crab meat with just enough mayonnaise to bind. Fill

into chilled tomato cases. Top with mayonnaise. Yield: 4 to 6 servings.

GUIDE CHIEF HERE IN OCT.

TORONTO (CP)—Lady Baden-Powell, wife of the founder of the boy scout and girl guide movements, arrives in Toronto today on the first leg of a tour of guide troops in western Canada. She will be in Victoria October 17 to 21.

CONTINENTAL LETTER

French Courtesy Intrigues; Fortress Town Fascinating

By GRACE E. MITCHELL

I travelled in the same coach on the train with a French Baron and Baroness, and later when I saw them again on my cruise to Norway, they always shook hands with me and wished be "Bon jour, mademoiselle" each day when they saw me for the first time. This made me feel as if our North American manners were somewhat indifferent and casual but perhaps we have been too busy building up a new country, shall we say?

It was interesting to learn something of the French National Assembly. The members are elected on a percentage basis—so that even if a man only gets 15 votes, some member of his party will be elected—the member getting the most votes. Thus there are a great many political parties represented in the Assembly.

At Nice I made a modest outlay in the form of a sailor suit, being worn by all the French girls this year, a white linen sun hat and a pair of pink cotton shoes. Whether this imparted the air of one who bought all her clothes on the Riviera I don't know, but later a wealthy American came up to me on the boat and said: "Your dress (not the sailor suit) is perfectly beautiful, you bought it in France, of course" to which I replied sweetly, "No, in Victoria, B.C."

I must tell you something of a very old fortress town that we passed high in the French Alps, Entrevaux, rather crumbling but very fascinating and looked right out of a story book. Then there was Sisteron, almost equally picturesque, with an appearance of not being disturbed for a thousand years, but on closer inspection there were bullet marks in the old church, and a cross to mark the spot where two underground agents had been shot during the last war. There were several more crosses by the roadside and I learned the word "maquis" (the name of the French underground forces) actually comes from the plant, which covers the mountains and hills near Sisteron. The hills in which the underground agents used to hide.

A little farther on I enjoyed some of the most delicious strawberries I have ever tasted—wonderfully cool and just lightly dipped in wine! Ah, vive la France!

Meets Son After 24 Years

"I can't believe I'm in Canada," says Mrs. Martha Ann Moore, 84, centre, still marvelling (in a gentle Yorkshire accent) at her first airplane ride. "In less than one day" she was whisked across the Atlantic to Victoria to greet her son Rev. Harold Moore for the first time in 24 years. Mrs. Moore arrived Monday from Rotherham, Eng., to live with her son and daughter-in-law, Rev. Elsie Moore, 1018 Park Boulevard, co-pastors of the Open Door Spiritualist Church, and her two granddaughters, Mrs. Audrey Naylor and Miss Sylvia Moore, 8.

OF PERSONAL INTEREST

Defence College Members Honored

Members of the Imperial Defence College of London who arrived in Victoria today in the course of a tour of Canada are being honored at a reception and a dinner during their short visit.

Rear-Admiral H. F. Pullen, OBE, CD, RCN, Flag Officer Pacific Coast, and Mrs. Pullen, entertained with a late-afternoon reception for the visitors at Combined Services College, Royal Roads, today. Capt. J. A. Charles, commandant of the college, and Mrs. Charles, assisted Rear-Admiral and Mrs. Pullen in receiving guests, among whom were Sir John F. Stevens, KBE, CB, RN, Commander-in-Chief, America and West Indies Squadron, and Lady Stevens.

Sir John and Lady Stevens came from Vancouver in HMS Superb Thursday evening, arriving at Esquimalt this morning.

Mr. and Mrs. Ian Ross are hosts tonight at a dinner party at the Butchart Gardens in honor of the defence college visitors. Their guests are Sir John and Lady Stevens, Vice-Admiral and Mrs. H. E. Reid, Rear-Admiral and Mrs. Pullen, Rear-Admiral and Mrs. J. C. Hibbard, Princess Chikhmatoff, Capt. and Mrs. J. A. Charles, Col. and Mrs. J. C. Cave, Capt. and Mrs. W. B. Holmes, Mr. and Mrs. J. Ian Simpson, Mr. and Mrs. J. H. McConnell and the members of the Imperial Defence College.

From Nova Scotia

Miss Joanne Bessonet, of Sackville, N.S., is on an extended holiday trip through Canada and the western United States. At present she is on a two-week visit with her grandparents, Lt. Col. and Mrs. R. V. C. Bessonet, 647 Admirals Road.

A half cup finely chopped fresh California dates and 2 teaspoons coarsely grated lemon rind add glamor to a simple butter and powdered sugar frosting. Especially good when it's to go on a walnut applesauce cake.

To Marry in Early Autumn

Mr. and Mrs. George R. Robinson, Elk Lake, wish to announce the engagement of their only daughter, Shirley Anne, to Mr. Robert Matthew Lee, eldest son of Mr. and Mrs. Ernest W. M. Lee, Brentwood Bay. The wedding will take place in the Church-by-The-Lake, on Sept. 3 at 8 p.m. with Rev. J. N. Clark officiating. Bridal attendants will be Miss Joan Bull, Miss Joan Ho-

worth, Mrs. Renee Karadimas, Mrs. Joy Scott, Miss Claire Guillemaud and junior attendants, Miss Anne Maber, Miss Laurie Baccus and Master Bobby Richardson. Best man will be Mr. James Gilbert and the ushers, Mr. George Robinson, Mr. Robert Jones and Mr. Arnold Hamilton. (Miss Robinson's photo by Mr. Robert Fort and Mr. Lee's by Chevron's Studio.)

of interest to Women

Editor Elizabeth Forbes

In Honor of the Bride

A tea honoring Miss Mary Samuelson was held recently in the lounge of the Empress Hotel when Miss Samuelson's co-workers in the office of the New Method Laundries Limited presented her with a crystal rose bowl in honor of her coming marriage. Invited were Mrs. F. Jefferson, Mrs. M. Gort, Mrs. E. Silburn, Mrs. F. Sparks, Mrs. M. Aylward, Mrs. M. Richards, Mrs. A. Pendray, Mrs. F. Houghton, Misses E. Wilkinson, P. Foubister, G. McKay and O. Sanford.

Last Friday evening a miscellaneous shower was held in the Community Hall at Tofino to honor Miss Joan Malon whose marriage to Mr. Colin Nicholson takes place this Saturday. The shower was sponsored by the employees of the Tofino Packing Company of which Mr. Pierre Malon, father of the bride-elect, is manager. Gifts, arranged in a decorated house wagon, were drawn into the room by Master Marshall Jenkins. The bride-elect was assisted in opening them by her sister, Miss Suzanne Malon, the groom-elect's sister; Miss Joan Nicholson and Miss Sheila Barr.

Miss Malon was also honored recently when her future sister-in-law, Miss Joan Nicholson, held a trousseau tea and shower at her home. Guests were the teenage group friends of the bride-elect.

Miss Joanne Briggs was surprised with a small party recently when Mrs. D. Hoey and Mrs. G. Jones were co-hostesses at the home of the former, 14 Gorge Road West. A group gift

of an electric toaster was made to the guest of honor. Rosebuds were in Miss Briggs' corsage, while her mother, Mrs. J. Briggs, and the groom-elect's mother, Mrs. G. Seaton, received pink carnations. The groom-elect's grandmother, Mrs. H. Eve, from Los Angeles, Calif., received salmon gladioli. Other guests were Mrs. S. Jones, Mrs. L. Jones, Mrs. E. Eve, Mrs. E. Stoltz, Mrs. E. Seaton, Mrs. H. Parry, Mrs. A. Unwin, Mrs. R. Andrew, Mrs. D. Jenkins, Mrs. R. Simm, Mrs. H. Andrews, Misses Elinor Eve, Beverley Bowles and Sandra Jones.

Tempting meals for hot summer days are crisp salads, with cold meat, eggs, cheese, fish or poultry slices.

PRIME MINISTER'S GRANDDAUGHTER TO MARRY

QUEBEC (CP)—The engagement of Louise Samson, 21-year-old granddaughter of Prime Minister St. Laurent, to Yvan Mignault, a 25-year-old Quebec City lawyer, was announced Thursday.

The wedding is scheduled to be held Oct. 1. Louise is the first grandchild of Mr. and Mrs. St. Laurent to be married.

The bride-to-be is the daughter of Dr. and Mrs. Mathieu Samson of Quebec City.

COLLEGE ALL-STARS PLAY PRO FOOTBALLERS ON C-5 AT 6.30

CHANNEL CHATTER—A low how from this corner to Mrs. Richard Collins of Vancouver who this month celebrates one year as Eleanor Collins, versatile star of CBU's "Parade" and now her own Sunday night TV show.

Long a favorite of this column, Mrs. Collins was born in Edmonton of Negro parents. The mother of four, she still remembers her mother's oft-quoted phrase: "Be ready for your chance, even if you can't see your way today."

Back in Edmonton as a child she began to sing with an orchestra at the Tivoli ballroom and later held a spot on the western radio show "Good Morning, Neighbor."

"Until television, I liked radio best and I never wanted a suitcase life," she explained. "Bigger bands came to Edmonton and I had offers but one-night stands and the night life in smoky clubs and halls didn't fascinate."

SOME 16 YEARS ago she moved to Vancouver and later met Richard Collins, railroad worker, and thoughts of a singing career vanished. "We wanted the same things," she says, "a home and a big family. We borrowed money for a wedding ring, then had to move into a small apartment with his invalid mother."

The big chance that her mother always warned her to be prepared for came last summer when Eleanor was invited to appear in a three-spot television series called "Bambola," featuring West Indies and Creole music and dancing. Then came a monthly series, "Parade," which earned attention and applause from newspaper critics. A few months ago the "Eleanor" show was born.

Channel 11: Actress Veronica Lake is Pantomime Quiz's star guest tonight.

Channel 4: Cap'n John (Preston Foster) looks into some unexpected cattle rustling on the Waterfront.

Channel 11: Topper (with the help of the ghostly Kerbys) entert

Leaders Blamed In Boys' Deaths

BANFF, Alta. (CP)—Inadequate leadership and equipment were blamed for the deaths of seven boys who died in an avalanche on Mt. Temple, Pittaway said "one of the slopes of Mount Temple, near those boys up—but by the rock approach."

The verdict, read by jury foreman Cyril Paris of Banff after 45 minutes of deliberation, declared:

"We find that all leadership and equipment of Wilderness Camps was inadequate for this type of climbing."

"The seven boys came to death in an avalanche between 4 p.m. July 11 and 1 a.m. July 12 on Mount Temple."

"The cause of death was from multiple injuries, shock and exposure."

"We find that a copy of the regulations pertaining to section 23A and B of the park regulations be attached to certificates of registration when issued."

COMMEND RESCUE WORK
"We find the park department free of all blame and very efficient in their rescue work."

Bertram Pittaway, chief park warden and a specialist in mountain climbing and rescue work, told the coroner he had talked with William Oeser and Oliver Donald Dickerson after the accident and they were "definitely not leaders."

"In an emergency a leader should go to the fore and do everything he can," Pittaway said.

GIRL KILLED BY OUTBOARD

LYNDONVILLE, N.Y. (AP)—A 14-year-old girl was killed Thursday night when she was struck by an outboard motor boat while swimming in Lake Ontario at nearby Lakeand Park. Police said Marilyn Andrew was struck by a 14-foot boat operated by Alfred L. Schmitt, 33. Schmitt told police he tried to swerve his boat when he saw the girl's head bob up suddenly in front of him.

World Scout Council Rule Bars Poles From Jamboree

MONTREAL (CP)—Jackson Dodds, deputy chief scout for Canada, said in a statement today that by decision of the International Scout Conference there is no recognition of national scout associations in exile.

It is for this reason that groups in Canada known as Polish scouts in exile will be unable to attend the World Scout Jamboree August 20-28 at Niagara-on-the-Lake, Ont.

At the same time, Mr. Dodds made it clear that Polish or other nationals are welcomed into recognized associations without losing cultural or other distinctive activities.

USEFUL SKUNK

The skunk aids man by eating hordes of cutworms, beetles, and grubs.

Ontario's British Twin Docks Here

ALMOST AN IDENTICAL TWIN to the RCN's cruiser Ontario, HMS Superb arrived here today for a six-day visit. Superb is 555 feet long, displaces 8,000 tons, and carries a peacetime complement of

867. Public is invited to inspect the ship 2 to 5 p.m. Saturday and next Wednesday. She is berthed at Jetty 32, Department of Transport, which can be reached through the main gate at HMCS Naden.

Booming Exchange of Greetings Marks Arrival of HMS Superb

FIRST OF THE SERIES of exchange visits called for by protocol during Superb's visit here was made this morning aboard the ship by Rear-Admiral Hugh Pullen, RCN, Flag Officer, Pacific Coast (centre). He was greeted by Vice-Admiral Sir John Stevens,

Commander-in-Chief of the America and West Indies Station, and Commodore D. H. Connell-Fuller, captain of Superb. In background is honor guard of ramrod-straight marines. (Times Photos by Halkett.)

British Cabinet Will Discuss Margaret's Status Says Paper

LONDON (UP)—Sir Anthony Eden may have called an unexpected cabinet meeting to discuss Princess Margaret's marriage status, a London newspaper suggested today.

The tabloid Daily Sketch asked: "Will the cabinet meeting called for Monday enable Sir Anthony Eden and his ministers to review the constitutional position of Princess Margaret?"

10 Firemen Injured In Vancouver Blaze

U.S. TROOPS DIG IN AS KOREA CRISIS NEARS

SEOUL, Korea (Saturday)—(UP)—Reinforced U.S. troops today threw up sandbag barricades and dug in behind them for anticipated riotous Korean demonstrators aimed at driving neutral truce inspection teams from Korea by midnight.

Units of the 32nd Infantry Regiment, 7th Division equipped with complete combat gear, were standing by at Kimpo airfield to be flown to U.S. compounds already besieged by Korean demonstrators. (See also Page 8).

Man Crushed To Death on Pat Bay Road

Gordon Lowe, Nanaimo, Dies When Pinned Under Rolling Car

A 28-year-old Nanaimo businessman, and father of two children was killed instantly today in an early-morning car accident near Sidney.

Dead is Gordon W. Lowe, 114 Argyle Street, Nanaimo.

Lowe's head was crushed when the car he was riding in rolled on its side after failing to negotiate a turn on West Saanich Road, about one-half mile south of Towner Park Road.

Inquest will be held Monday at 10 a.m. at Sands Funeral Chapel at Sidney.

Towner Park Road is near the West Saanich Indian Reserve.

RCMP identified driver of the car as Desmond George McGimpsey.

McGimpsey and two other passengers in the car escaped uninjured, RCMP said. Police would not identify them.

HIT SOFT SHOULDER

The car was travelling toward Victoria when it failed to make a turn to the right, going off the left side of the road and hitting a soft shoulder and about a three-foot dip.

It turned on its side. Lowe apparently had his head out the left rear side window at the time.

Lowe was born in Coombs, B.C., and was a resident of Nanaimo since 1947.

He was a partner in Totem Electric shop.

He is survived by his wife, Mary; two daughters, Marjorie, 7, and Janice, 6, at home; his parents, Mr. and Mrs. Norman Lowe, Nanaimo; a sister, Mrs. Ruth Arsenault, also of Nanaimo.

Funeral services will be held Wednesday at Nanaimo.

Moscow Visit Sept. 9

PARIS (UP)—West Germany announced today that Chancellor Konrad Adenauer will visit Moscow on Sept. 9.

MORE RESEARCH SECRETS UNLOCKED

Red China Slips Observer Into Atoms-for-Peace Talks

(Compiled from UP, AP and Reuters)

GENEVA—Red China today slipped into the Atoms-for-Peace Conference—through the back door.

Tu Sheng-wang, identified as a Peiping metallurgist, presented credentials from the Communist World Federation of Scientific Observers. He was admitted as an observer.

Red China's consulate here said it could be "assumed" Tu "will report back to the People's Republic of China."

Tu arrived Thursday, via Moscow.

He is the first accredited Red-Chinese representative ever to participate in a United Nations meeting in Geneva.

His arrival topped a week of surprises, led off by President Eisenhower's historic action in unlocking for the world the

U.S. secrets on atomic research reactors.

The president sent eight volumes of blueprints and technical data to the 72-nation conference.

SOVIETS DO LIKEWISE

Russia followed suit the next day. Dr. M. S. Kozlov gave detailed highly technical data on Soviet nuclear experiments.

One Western delegate commented: "The atomic curtain in fundamental physics is now completely down between East and West."

Today's atoms-for-peace sessions heard, in highly-technical lectures, how atomic waste products are being turned into radioactive isotopes for treatment of cancer.

Dr. W. V. Mayneord of the Royal Cancer Hospital, London, described a device that, under certain conditions, will show a brain tumor on a television screen.

M. N. Fateyeva, a Soviet scientist, said his country's doctors are making extensive use of radioactive sodium and phosphorus to study heart disease.

CANCER-KILLER

Two American doctors, W. F. Bale and I. L. Spar of the University of Rochester, outlined a new kind of "guided missile" against cancer.

They are searching for substances that would "home" on

Blast Hurls Men 50 Feet in \$250,000 False Creek Fire

VANCOUVER (CP)—Ten firemen and a company employee were injured in a savage, explosion-torn fire Thursday night which swept through the millwork plant of Dominion Construction Co. in the heart of Vancouver's False Creek industrial area causing \$250,000 damage.

Two hundred firemen battled the stubborn, paint-fed blaze for more than two hours before bringing it under control and keeping it from touching off a major oil fire.

Roaring flames belched 200 feet into the air, erupted by five explosions and threatening surrounding plants in the multi-million dollar industrial site.

The injured firemen suffered cuts from flying glass, eye injuries and one a fractured wrist from a fall.

FINGERS CRUSHED

Company worker Jim Gulle, 30, suffered two crushed fingers when he attempted to salvage some of the expensive furniture being built by his company.

Ten other firemen narrowly escaped serious injury when pent-up gas in the huge, new building exploded in a back-flash, hurling some of them 50 feet.

Firefighters struggled through the intense heat and dense smoke to prevent flames reaching the oil storage rooms and volatile liquids in the paint room.

Although flames licked at the walls of both these explosive areas, firemen prevented them from erupting by keeping a continuous stream of water flowing over them.

TOTAL LOSS

H. C. Bentall, vice-president of Dominion Construction, estimated the value of building and contents at \$250,000. He said the building, covered by insurance, was a total loss.

Destroyed in the fire besides the new 150-foot-long building was part of a \$150,000 order of refrigerator cases, millwork machinery, stores of plywood, paint and other building materials.

The plant employed 100 men. Mr. Bentall said they would all be relocated and manufacturing operations would be continued in other company premises.

HUNGARY MILERS OUTFOX CHATAWAY

LONDON (AP)—Laszlo Tabori edged out his fellow Hungarian Sander tharos in a battle of the four minute-milers today to outfox Britain's Chris Chataway who finished a weak third.

Both Tabori and tharos clocked at 4.05. Chataway's time was 4.06.4 and Ken Wood of Britain trailed in the four-man field in 4.08.2.

(See sports, page.)

'Connie' Smacks Carolina Coast; N.Y. Deluged

Winds Slackening; 'Diane' Coming Up

NEW YORK (UP)—Torrential rains hit New York City early today blocking arterial highways and flooding subway stations and thousands of basements.

Police reported that hundreds of automobiles were stalled in deep run-off water on Long Island, some in water up to the rooftops.

The transit authority said tons of water poured into several subway stations in the boroughs of Queens and Brooklyn.

Four deaths were attributed to the flooding.

CAPE HATTERAS, N.C. (UP)—Hurricane Connie smacked against the North Carolina coast today and headed north toward the heavily populated eastern seaboard while far to the southeast another tropical storm reached full hurricane strength.

The new hurricane was Diane, still 1,150 miles east of Miami. Highest winds already were up to 80 or 90 miles an hour.

Connie bored inland at Morehead City, N.C., in mid-morning with winds officially clocked at about 100 miles an hour, but unofficially they were said to have been considerably below that shortly after they hit the coast.

The storm pushed tide water far inland, however, and streams flooded their banks at scores of points. Thousands were homeless.

An amateur radio operator reported from a spot inland and west of Morehead City at noon that he may have to close down because the top of the tower where his equipment was located was about to blow away.

The Red Cross housed 14,000 last night in shelters along the North Carolina coast and another 6,700 at Myrtle Beach, S.C.

HALIFAX (BUP)—The weather bureau in Halifax predicted today that Nova Scotia would get gale force winds as a result of hurricane Connie in about 36 hours time.

China, U.S. Agree Students To Go Home

NEW DELHI (Reuters)—American and Chinese Communist negotiators at Geneva have agreed in principle to the idea of a "third party" to supervise return of Chinese students who wish to leave the United States. It was learned from usually reliable sources here today.

India, it is understood, will undertake the third party responsibility, despite her already heavy commitments in Indochina, if Communist China makes an official approach and the United States enters no objections.

IT WAS POET, NOT POEM; CROSSWORD PRIZE \$375

Prize money in the Times' popular Crossword Contest continues to mount; contestants again failed with last week's puzzle. For the puzzle published today on Page 24 a total award of \$375 is offered.

Poet was one of the hard nuts for puzzlers to crack last week. The clue read:

"Might help a person to appreciate the beauty of words."

Most entries came up with answer "poem." The poem itself does not help, but merely presents words in a beautiful form whereas a poet might literally help.

Other answers puzzlers found difficult to arrive at were "paddle," most of them giving "saddle," and "fame" which thousands thought should be "name."

Complete answer and explanation for the more difficult clues are also on Page 24 of today's Times.

One of 7 Sought Drug Suspects Held

VANCOUVER (BUP)—Another man has been arrested and six more are being sought by Vancouver police and the RCMP in their round-up of drug peddlers in the west coast city.

Norman Malboeuf was arrested shortly after noon today and charged on two counts of trafficking in drugs.

Police officials say they are seeking six more suspects.

Queen's Cup Winner Gets 20 'Bulls'

SOUTH MARCH, Ont. (CP)—Lieut. Edson L. Warner, 25-year-old Lennoxville, Que., trucker, who Thursday won the coveted Queen's Medal, today shot 20 consecutive bullseyes for a perfect 100 score to win the City of Ottawa match at the Dominion of Canada Rifle Association's 73rd annual prize meet.

Capt. J. R. Newell of the Queen's Own Cameron Highlanders, Winnipeg, was second with 99 of a possible 100. He made 49 points on the 200-yard range but hit the 50 possible at 900 yards.

French Agree on Plan for Morocco

PARIS (UP)—The government reached agreement today on a plan to stem unrest in Morocco. Informal sources said the plan called for social reforms and more self-rule for the North African protectorate.

The agreement was hammered out in 12 hours of bargaining in the North African co-ordination committee. (See story, Page 25).

Sam Snead Enters Canadian Open

TORONTO (CP)—Sam Snead, three-time winner of the Canadian Open golf championship, has filed his entry for the 1955 tournament at suburban Weston Aug. 17-20.

The Royal Canadian Golf Association said today it had just received Snead's entry along with that of Ed Furgol.

Girl Sets Mile Free-Style Swim Mark

UTRECHT, Holland (BUP)—Teen-aged swimmer Mary Kok smashed the one-mile freestyle swimming world record here today, clocking 22 minutes, 27.1 seconds and bettering the world mark of Australia's Judy Davies by 24.5 seconds.

Miss Davies set the old world mark on March 13, 1953. Her clocking was 22:51.6.

Union Ss. Strikers Cut Pay Demands

VANCOUVER (CP)—Substantial cuts in pay demands featured a new proposal Thursday by 350 striking seamen to end a 41-day tie-up of Union Steamships' 12 coastal vessels.

It was the first proposal since talks between the Seafarers' International Union, AFL, and the company came to a standstill last week.

The new offer calls for \$1.26 an hour for deckhands and \$1.46 for chief cooks compared with the earlier demand for \$1.65 and \$2.35 an hour, respectively.

Balding Leads Pro Golf Tournament

HAMILTON (CP)—Al Balding, strapping Credit Valley pro, held a six-stroke lead on first place going into the third and final round of the Canadian Professional Golfers' Association tournament here today. His score for 54 holes was 132.

Bill Mawhinney of Vancouver added a 69 to his 75 of Thursday for a two-round total of 144.

IT WAS POET, NOT POEM;
CROSSWORD PRIZE \$375

Prize money in the Times' popular Crossword Contest continues to mount; contestants again failed with last week's puzzle. For the puzzle published today on Page 24 a total award of \$375 is offered.

Trail's Pete McIntyre Crowned
Northwest Seniors' Golf Champ

Smelter executive Pete McIntyre of Trail defeated slender Harry Andrews of Tacoma, 4 and 2, today to win the 33rd annual Seniors' Northwest Golf Association tournament at Victoria Golf Club.

McIntyre, B.C. senior champion, became the first left-handed golfer in history to win

Defending Champion
Scores One-Sided Win

Defending champion Miss Marlene Stewart, Font-hill, Ont., and Miss Mary Gay, Kitchener, Ont., will meet over 36 holes Saturday at the Royal Colwood Club for the Canadian Ladies' Open Golf Championship.

Miss Stewart reached the final with a crushing 5 and 4 triumph over Miss Sheila Ross of Vancouver.

Miss Gay won her semifinal from medalist Mrs. R. L. Ihlanfeldt of Seattle, 1 up. After being 1 down on the 15th, Miss Gay sank a 15-foot putt on the 16th for an eagle three to square the match and went 1 up on the 17th with a birdie three. The 18th was halved.

Miss Stewart and Miss Gay met in last year's final.

Mrs. Ihlanfeldt won the first hole with a 20-foot putt for a birdie three, and went two up on the second by winning with a par four.

Miss Gay fought back to take the third with a birdie four, and squared the match on the fourth when Mrs. Ihlanfeldt conceded.

HITS SPECTATOR

After halving the fifth and sixth holes, Miss Gay went one up on the seventh with a par three after Mrs. Ihlanfeldt overdrove the green. Mrs. Ihlanfeldt's hooked tee shot on the ninth hit a spectator and bounced back on the fairway, enabling her to halve the hole, and she squared the match once more on the ninth after putting her second shot four feet from the cup.

Miss Stewart won the first hole with a par four, second with a bogie five and the third with a par five. She sank a 10-foot putt on the fourth for a half, and went four up on the

fifth after Miss Ross hooked into a trap and two-putted. The sixth, seventh and eighth were halved. On the ninth Miss Ross cut the margin to three up with a sensational shot from the trap to within 16 inches of the pin. Miss Stewart chipped short from the apron and missed her putt for a par four to lose the hole.

Miss Stewart went four up again with a birdie four on the 10th, halved the 11th, with a par four, and went five up on the 12th with a birdie four.

Miss Ross sank a four-foot putt on the 13th to cut the margin to four up, but Miss Stewart won the match on the 15th green by taking a five on the par-three hole. Miss Ross finished with a six.

SEESAW BATTLE

Mrs. Ihlanfeldt went one up in her match with a birdie four on the 10th, but Miss Gay won the 11th with an eagle two, sinking her chip shot. The 12th was halved with birdie fours. Mrs. Ihlanfeldt won the 13th when Miss Gay missed a short putt, but Miss Gay came back to square the match once again on the 14th by dropping a 10-foot putt.

Copper Strike Ends

SALT LAKE CITY (UP) — The Kennecott Copper Corp. and eight unions reached an agreement early today and ended a 42-day strike that had cut off one-third of America's domestic supply of copper.

10 Firemen Injured
In Vancouver Blaze

Explosion Hurls Men 50 Feet
In \$250,000 False Creek Fire

VANCOUVER (CP)—Ten firemen and a company employee were injured in a savage, explosion-torn fire Thursday night which swept through the millwork plant of Dominion Construction Co. in the heart of Vancouver's False Creek industrial area causing \$250,000 damage.

Two hundred firemen battled the stubborn, paint-fueled blaze for more than two hours before bringing it under control and keeping it from touching off a major oil fire.

Roaring flames belched 200 feet into the air, erupted by five explosions and threatening surrounding plants in the multi-million dollar industrial site.

The injured firemen suffered cuts from flying glass, eye injuries and one a fractured wrist from a fall.

FINGERS CRUSHED

Company worker Jim Guile, 30, suffered two crushed fingers when he attempted to salvage some of the expensive furniture being built by his company.

Ten other firemen narrowly escaped serious injury when pent-up gas in the huge, new building exploded in a back flash, hurling some of them 50 feet.

Firefighters struggled through the intense heat and dense smoke to prevent flames

reaching the oil storage rooms and volatile liquids in the paint room.

Although flames licked at the walls of both these explosive areas, firemen prevented them from erupting by keeping a continuous stream of water flowing over them.

TOTAL LOSS

H. C. Bentall, vice-president of Dominion Construction, estimated the value of building and contents at \$250,000. He said the building, covered by insurance, was a total loss.

Destroyed in the fire besides the new 150-foot-long building was part of a \$150,000 order of refrigeratory, stores of plywood machinery, cases of millwork, paint and other building materials.

The plant employed 100 L.C.N. Mr. Bentall said they would all be relocated and manufacturing operations would be continued in other company premises.
